In support hereof, the Applicant states and alleges as follows:

1. Applicant is a Colorado corporation duly authorized to conduct business in the state of Colorado, and is a registered operator in good-standing with the Commission.
2. Applicant owns certain leasehold interests in the Application Lands requested for pooling.
3. On December 19, 1983, the Commission issued Order No. 407-1 (amended on March 29, 2000 in accordance with Order No. 407-17, entered November 18, 1985), which, among other things, established 80-acre drilling and spacing units for the production of oil and/or gas and associated hydrocarbons from the Codell Formation underlying certain lands, with the drilling and spacing unit to be designated by the operator drilling the first well in the quarter section, or by the Director of the Commission if the operator does not designate. The permitted well shall be located in the center of either 40-acre tract within the drilling and spacing unit with a tolerance of 200 feet in any direction. The operator shall have the option to drill an additional well on the undrilled 40-acre tract in each 80-acre drilling and spacing unit.
4. On February 19, 1992, the Commission issued Order No. 407-87 (amended August 20, 1993), which among other things, established 80-acre drilling and spacing units for the production of oil, gas and associated hydrocarbons from the Codell and Niobrara Formations, with the permitted well locations in accordance with the provisions of Order No. 407-1.
5. On April 27, 1998, the Commission adopted Rule 318A, which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all of the Cretaceous Age Formations from the base of the Dakota Formation to the surface. On December 5, 2005, Rule 318A was amended to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was amended to, among other things, address drilling of horizontal wells. The lands encompassing the Application Lands are subject to Rule 318A, for the Codell and Niobrara Formations.
6. The Commission by Order No. 1 in cause No. 407 previously designated an 80-acre wellbore spacing unit for two wells, as described below, for the production of oil, gas, and associated hydrocarbons from the Codell Formation. In Order No. 407-10, the Commission amended Order No. 407-1 to include production from the Niobrara Formation in certain lands and to allow the downhole commingling of production from the Codell and Niobrara Formations. In Amended Order No. 407-87, the Commission expanded the scope of Niobrara Formation spacing and established 80-acre drilling and spacing with the Codell-Niobrara Formations underlying the Spacing Unit.
