

BEFORE THE OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO

IN THE MATTER OF THE PROMULGATION AND)	CAUSE NO. 407
ESTABLISHMENT OF FIELD RULES TO GOVERN)	
OPERATIONS FOR THE CODELL AND NIOBRARA)	DOCKET NO. 410-SP-2140
FORMATIONS, WATTENBERG FIELD, WELD AND)	
ADAMS COUNTIES, COLORADO)	

APPLICATION

Carrizo Oil & Gas, Inc. ("Carrizo" or "Applicant"), by and through its attorneys Burns, Figa, & Will, P.C., respectfully submits this Amended Application to the Oil and Gas Conservation Commission of the State of Colorado (the "Commission") for an order to: (i) maintain the approximate 80-acre drilling and spacing units established for the Application Lands for the production of oil, gas, and associated hydrocarbons from the Codell and Niobrara formations; (ii) maintain the approximate 320-acre drilling and spacing units established for the Application Lands for the production of oil, gas, and associated hydrocarbons from existing wells producing from or completed to the Codell and Niobrara formations commingled or dually-completed to the Dakota or "J" Sand formations; (iii) establish an approximate **921.58-acre** drilling and spacing unit for the Application Lands, for the production of oil, gas, and associated hydrocarbons from the Codell and Niobrara formations; and (iv) approve four (4) horizontal wells within the proposed unit, for the production of oil, gas, and associated hydrocarbons from the Codell and Niobrara formations. In support of its Application, Carrizo states and alleges as follows:

1. Carrizo is a corporation duly authorized to do business in Colorado and is registered as an operator in good standing with the Commission.

2. Carrizo holds leasehold interests and has the right to operate in the following lands:

Township 1 North, Range 66 West, 6th P.M.
Section 34: All

Weld County, Colorado

Township 1 South, Range 66 West, 6th P.M.
Section 3: N/2

Adams County, Colorado; containing a total of approximately 921.58 acres.

These lands are referred to herein as the "Application Lands." A reference map depicting the Application Lands is attached hereto and marked as Exhibit A.

3. On April 27, 1998, the Commission adopted Rule 318A, which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all of the Cretaceous Age formations from the base of the Dakota formation to the surface. Rule 318A supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. On December 5, 2005, Rule 318A was amended, among other things, to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was again amended, among other things, to address drilling of horizontal wells. The Application Lands are subject to Rule 318A for the Codell and Niobrara formations.

Maintaining 80-acre Drilling and Spacing Units for Conventional Production from the Codell and Niobrara Formations

4. On February 19, 1992, the Commission entered Order No. 407-87 (amended August 20, 1993), which, among other things, established 80-acre drilling and spacing units for the production of oil, gas and associated hydrocarbons from the Codell and Niobrara formations, with the permitted well locations in accordance with the provisions of Order No. 407-1. The Application Lands are subject to Order No. 407-87 for the Codell and Niobrara formations.

5. This Application is specifically related to horizontal development. Accordingly, it is not seeking to vacate the 80-acre drilling and spacing units established for production from the Codell and Niobrara formations for the Application Lands. As such, the approximate 80-acre drilling and spacing units established for the Application Lands should be maintained.

Maintaining 320-acre Drilling and Spacing Units for Commingled Production from the Dakota or "J" Sand, Codell, and Niobrara Formations

6. On November 16, 1992, the Commission entered Order No. 499-15 which, among other things, established 320-acre drilling and spacing units for certain lands for the production of oil, gas, and associated hydrocarbons from the Codell and Niobrara formations commingled or dually-completed with the Dakota or "J" Sand formations. The Application Lands are subject to Order No. 499-15 for the Codell and Niobrara formations commingled with the Dakota or "J" Sand formations.

7. This Application is specifically related to horizontal development of the Codell and Niobrara formations. Accordingly, it is not seeking to vacate the 320-acre drilling and spacing units established for production from the Codell and Niobrara formations for the Application Lands commingled or dually-completed with the Dakota or "J" Sand formations. As such, the approximate 320-acre drilling and spacing units

established for production from the Codell and Niobrara formations commingled or dually-completed with the Dakota or "J" Sand formations should be maintained.

*Establishing a **921.58-acre** Drilling and Spacing Unit for Horizontal Development of the Codell and Niobrara Formations*

8. Carrizo requests that the Commission establish an approximate **921.58-acre** drilling and spacing unit comprised of the Application Lands, for production of oil, gas, and associated hydrocarbons from the Codell and Niobrara formations. Carrizo requests this drilling and spacing unit pursuant to C.R.S. § 34-60-116(2) and Rule 318A; it does not seek a horizontal wellbore spacing unit pursuant to Rule 318A(l)(a)(4)(D). The proposed drilling and spacing unit is not smaller than the maximum area that can be economically and efficiently drained by the proposed wells. Establishment of the proposed drilling and spacing unit will promote economic and efficient recovery of resources, protect correlative rights, and avoid waste.

10. Carrizo requests that the Commission approve up to four (4) horizontal wells within the proposed unit, for the production of oil, gas, and associated hydrocarbons from the Codell and Niobrara formations.

11. Carrizo states that proposed horizontal wells will be drilled from surface locations described in Rule 318A(l)(a) or on other lands with consent of the landowner, without exception being granted by the Director. The treated interval of the proposed wellbores will be located not less than 460 feet from the outer boundary of the proposed drilling and spacing unit, and not less than 150 feet from the treated interval of any other well producing from the Codell and Niobrara formations, without exception being granted by the Director. These locations and setbacks will promote economic and efficient recovery of resources, protect correlative rights, and avoid waste.

12. The granting of this Application is in accord with the Oil and Gas Conservation Act, C.R.S. § 34-60-101 et seq., and the Commission Rules.

13. Carrizo requests that relief granted under this Application be effective upon oral order of the Commission, and Carrizo hereby agrees to be bound by such oral order.

14. The names and addresses of the interested parties, according to Carrizo's information and belief, are set forth in the attached Exhibit B, and the undersigned certifies that copies of this Application will be served on each interested party within the next seven days, as required by Rule 503.e.

WHEREFORE, Carrizo respectfully requests that this matter be set for hearing at the next available opportunity, that notice be given as required by law, and that the Commission enter an Order to:

- A. Maintain the approximate 80-acre drilling and spacing units established for the Application Lands for the production of oil, gas, and associated hydrocarbons from the Codell and Niobrara formations.
- B. Maintain the approximate 320-acre drilling and spacing units established for the Application Lands for the production of oil, gas, and associated hydrocarbons from wells producing from (or completed to) the Codell and Niobrara formations commingled or dually completed with the Dakota or "J" Sand formation.
- C. Establish an approximate **921.58-acre** drilling and spacing unit in the Application Lands for the production of oil, gas, and associated hydrocarbons from the Codell and Niobrara formations; and
- D. Approve up to four (4) horizontal wells within the proposed approximate 640-acre drilling and spacing unit, for the production of oil, gas and associated hydrocarbons from the Codell and Niobrara formations.

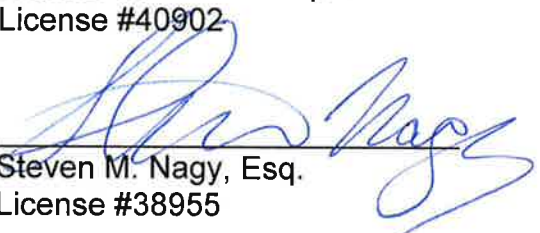

DATED this 22th day of December, 2014.

Respectfully submitted,

CARRIZO OIL & GAS, INC.
