

**BEFORE THE OIL AND GAS CONSERVATION COMMISSION OF
THE STATE OF COLORADO**

IN THE MATTER OF THE PROMULGATION) CAUSE No. 407
AND ESTABLISHMENT OF FIELD RULES TO)
GOVERN OPERATIONS FOR THE CODELL)
AND NIOBRARA FORMATIONS, WATTENBERG)
FIELD, WELD COUNTY, COLORADO) DOCKET NO. 1410-UP-__

VERIFIED APPLICATION

COMES NOW, Synergy Resources Corporation ("Synergy" or "Applicant") by its attorneys, Lohf Shaiman Jacobs Hyman & Feiger PC, and submits its Application to the Oil and Gas Conservation Commission of the State of Colorado, for an order establishing an approximate 160-acre wellbore spacing unit for production of oil, gas and associated hydrocarbons from the Codell and Niobrara Formations, and pooling all interests therein, in certain lands in the Wattenberg Field, Weld County, Colorado, and in support states as follows:

1. Applicant is duly organized and authorized to conduct business in the State of Colorado.

2. Applicant owns leasehold interests in the following described lands in Weld County, Colorado, containing approximately 160-acres (hereinafter, the "Application Lands"):

Township 7 North, Range 65 West, 6th P.M.
Section 30: SE¼

3. On April 27, 1998, the Commission adopted Rule 318A, the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule, which among other things, allowed certain drilling locations to be utilized to drill, twin, deepen or recomplete a well and to commingle any or all of the Cretaceous Age Formations from the base of the Dakota Formation to the surface. Rule 318A.a.(4)(B) provides among other things that when wells are drilled the authorized window in the center of a quarter-section, the operator may apply to the Commission to form a unit. The Application Lands are subject to Rule 318A for the Codell and Niobrara Formations.

4. On information and belief, the Application Lands are unspaced as to the Niobrara and Codell Formations.

5. The Applicant has designated the SE¼ of said Section 30 as the wellbore spacing unit for production of the Hawkstone #29-30DD well (API # 05-123-39048) (the "Well") from the Codell and Niobrara Formations.

6. To promote efficient drainage of the Formations in the Application Lands, to protect correlative rights and avoid waste, the Commission should enter an order to establish a wellbore spacing unit for the Well of approximately 160-acres, consisting of the SE¼ of said Section 30.

7. The proposed wellbore spacing unit will allow efficient drainage of the Codell and Niobrara Formations; prevent waste; not adversely affect correlative rights of any owner, and assure the greatest ultimate recovery of oil, gas and associated hydrocarbon substances from the reservoirs.

8. A wellbore spacing unit of the size and shape specified above is not smaller than the maximum area that can be economically and efficiently drained by a single well producing from the Codell and Niobrara Formations in such unit.

9. The Applicant has drilled and is completing the Well to the Codell and Niobrara Formations on a unit composed of the Application Lands.

10. Applicant has been unable to obtain consent to voluntary pooling by all interest owners in the Application Lands. As a result, Applicant requests that all interests in the unit composed of the Application Lands be involuntarily pooled pursuant to C.R.S. §34-60-116, and consenting parties be allowed to recover, from any non-consenting owner's share of production, the penalty costs provided in C.R.S. § 34-60-116 (7) of the Colorado Oil and Gas Conservation Act.

11. The names and addresses of those persons who own any interest in the mineral estate in the Application Lands, exclusive of overriding royalty interests, according to the information and belief of the Applicant, are set forth on **Exhibit A**. Copies of this Verified Application shall be served on all such owners within seven (7) days of the date of this Application, as required by Commission Rule 503.e.

12. At least thirty (30) days prior to the hearing on this Application, the Applicant will have sent all owners listed on **Exhibit A**, who have not previously consented to lease or otherwise participate in the drilling and completion of the Well, an Authority for Expenditures (AFE) and/or supporting documents which contain all information required by Commission Rule 530.b., and in case of unleased mineral owners, an offer to lease which is reasonable based on the factors listed in Commission Rule 530.c.

13. Applicant anticipates that one or more of such owners will refuse or fail to respond to such offer to lease and/or to participate in the drilling, completion and operation of such Well, and shall be deemed non-consenting parties under Commission Rule 530.b and c.

14. An order of the Commission pooling all interests in the unit for production from the Codell and Niobrara Formations shall therefore be necessary in order to afford each owner of an interest in the unit the opportunity to recover and receive its just and equitable share of the oil and/or gas from the common source of supply underlying the unit.

15. The granting of the requested order would not be prejudicial to the owners in the unit and would protect correlative rights.

16. The requested order should be effective as of the date that costs specified by C.R.S. §34-60-116(7)(b) were first incurred by Applicant for the drilling of the Well.

REQUEST FOR HEARING AND ORDER

WHEREFORE, Synergy prays that this matter be set for hearing, notice of said hearing be given as required by law, if no protests are timely received the matter be considered pursuant to Rule 511(b), and the Commission enter an Order establishing a 160-acre wellbore spacing unit consisting of the Application Lands for the Hawkstone #29-30DD well (API # 05-123-39048) to the Codell and Niobrara Formations, and pooling all interests in the Application Lands with respect to production of the Codell and Niobrara Formations, and that such pooling Order:

(1) be upon terms and conditions which are just and reasonable and afford to the owner of each interest the opportunity to recover or receive, without unnecessary expense, his just and equitable share of oil and gas;

(2) provide that production obtained from the pooled tract be allocated to each owner therein on the basis of the proportion that the number of mineral acres held by each owner in the drilling unit bears to the total number of mineral acres within the drilling unit;

(3) provide that with respect to the Well the consenting parties be allowed to recover from any non-consenting owner's share of production the penalty costs as provided in C.R.S. § 34-60-116 (7)(b); and

(4) require the operator to provide each non-consenting interest owner in the unit with monthly statement of costs incurred together with the quantity of oil and gas produced and proceeds realized, pursuant to C.R.S. §34-60-116(8).

RESPECTFULLY SUBMITTED this 27th day of August, 2014.
