

**BEFORE THE OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO**

IN THE MATTER OF THE APPLICATION OF GREAT WESTERN OPERATING COMPANY, LLC, FOR AN ORDER TO ESTABLISH AN APPROXIMATE **1,120**-ACRE DRILLING AND SPACING UNIT AND ESTABLISHING WELL LOCATION RULES FOR THE CODELL-NIOBRARA FORMATION IN SECTIONS 15 AND 16, TOWNSHIP 6 NORTH, RANGE 67 WEST, 6TH P.M, WATTENBERG FIELD, WELD COUNTY, COLORADO

Cause No. **407**

Docket No. **150300128**

APPLICATION

COMES NOW Great Western Operating Company, LLC (Operator No. 10110) ("GW" or "Applicant"), by and through its attorneys, **Burleson LLP**, and makes this application to the Oil and Gas Conservation Commission of the State of Colorado ("Commission") for an order to 1) amend Order No. 407-741 to authorize no more than one (1) horizontal well within the approximate 640-acre drilling and spacing unit established by such order, for the development and operation of the Codell-Niobrara Formation, 2) establish an approximate **1,120**-acre drilling and spacing unit, 3) authorize up to twenty-one (21) horizontal wells in order to efficiently and economically recover the oil, gas and associated hydrocarbons within said **1,120**-acre drilling and spacing unit from the Codell-Niobrara Formation underlying the below-described lands, 4) provide that the treated interval of the horizontal wellbores shall be no closer than 460 feet from the unit boundaries, without exception being granted by the Director, 5) provide that the treated interval of any horizontal wellbore permitted to a specific formation shall be no closer than 150 feet to the treated interval of any other **vertical, directional or** horizontal wellbore in the unit that is permitted to the same formation, without exception being granted by the Director. In support of its Application, Applicant states and alleges as follows:

1. Applicant is a corporation duly authorized to conduct business in the State of Colorado, and is a registered operator in good standing with the Commission.
2. Applicant owns leasehold interests or holds the right to operate on the following lands:

Township 6 North, Range 67 West, 6th P.M.

Section 15: **W/2, NE¼**

Section 16: All

1,120-acres, more or less, Weld County, Colorado.
(hereinafter "Application Lands")

A reference map of the Application Lands is attached hereto.

3. On April 27, 1998, the Commission adopted Rule 318A, which among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all of the Cretaceous Age Formations from the base of the Dakota Formation to the surface. On December 5, 2005, Rule 318A was amended to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was again amended to, among other things, address the drilling of horizontal wells.

4. On February 19, 1992, the Commission entered Order No. 407-87 (amended August 20, 1993) which, among other things, established 80-acre drilling and spacing units for the production of oil, gas and associated hydrocarbons from the Codell-Niobrara Formation underlying certain lands, including the Application Lands, with the permitted well locations in accordance with the provisions of Order No. 407-1.

5. On January 7, 2013, the Commission entered Order No. 407-741, which 1) vacated the approximate 80-acre drilling and spacing units established by Order No. 407-87 for Section 16 of the Application Lands 2) established an approximate 640-acre drilling and spacing unit consisting of Section 16 of the Application Lands, and 3) approved up to seven (7) horizontal wells within each unit, for the development and operation of the Codell-Niobrara Formation, with the treated interval of the horizontal wellbores to be no closer than 460 feet from the unit boundaries, and no closer than 150 feet from the treated interval of any other wellbore located in the unit, without exception being granted by the Director. Applicant is requesting in this Application that the approximate 640-acre drilling and spacing unit established by Order No. 407-741 remain in place. Thus, the proposed approximate **1,120**-acre drilling and spacing unit will overlap the existing approximate 640-acre drilling and spacing unit. Proceeds of production from the single well permitted to the existing approximate 640-acre drilling and spacing unit (DeTienne FD 16-022HC Well, API No. 05-123-39630) will continue to be allocated on the basis of the existing unit. Applicant is requesting in this Application that Order No. 407-741 be amended to allow only a single horizontal well within the unit for the development and operation of the Codell-Niobrara Formation.

6. On July 29, 2013, the Commission entered Order No. 407-848, which pooled all interests in the approximate 640-acre drilling and spacing unit established by Order No. 407-741 for Section 16, Township 6 North, Range 67 West, 6th P.M., for the development and operation of the Codell-Niobrara Formation.

7. On June 17, 2014, the Commission entered Order No. 407-1027, which pooled all interests in two approximate 640-acre designated wellbore spacing units, both of which cover the N $\frac{1}{2}$ N $\frac{1}{2}$ of Section 16 of the Application Lands, and other lands, for the development and operation of the Codell and/or Niobrara Formations.

8. On September 15, 2014, the Commission entered Order No. 407-1107, which applied the cost recovery provisions of C.R.S. § 34-60-116(7) to any non-consenting owners within the approximate 640-acre drilling and spacing unit established

by Order No. 407-741 for Section 16, Township 6 North, Range 67 West, 6th P.M. for the DeTienne FD 16-022HC Well (API No. 05-123-39630).

9. The Application Lands are the subject of an application pending before the Commission, filed concurrently herewith, and set for hearing at the Commission's **May**, 2015 hearing, to pool the proposed approximate **1,120-acre** drilling and spacing unit composed of the Application Lands.

10. The records of the Commission reflect that **eleven (11)** wells are currently producing in the Application Lands, as listed below. Applicant maintains and confirms that each of these wells shall remain subject to currently applicable COGCC-approved spacing units and shall not become subject to the proposed approximate **1,120-acre** drilling and spacing unit herein. Proceeds from such wells will continue to be allocated in accordance with their current allocation.

Name	APINo.	Operator	Formation
DeTienne FD 16-022HC	05-123-39630	Applicant	Codell
Simpson 1	05-123-11328	Applicant	Codell-Niobrara
Haas 1	05-123-11564	Applicant	Codell-Niobrara
Winder 1	05-123-11836	Applicant	Codell-Niobrara
Winder 11-15	05-123-26149	Applicant	Codell-Niobrara
RBF 15B	05-123-31988	Highpoint Energy LLC	Codell & Niobrara
RBF 24-15D	05-123-32060	Highpoint Energy LLC	Codell & Niobrara
RBF 14-15D	05-123-32061	Highpoint Energy LLC	Codell & Niobrara
RBF 13-15D	05-123-32323	Highpoint Energy LLC	Codell & Niobrara
RBF 23-15D	05-123-32324	Highpoint Energy LLC	Codell & Niobrara
392 Ventures 22JD	05-123-34137	Highpoint Energy LLC	Codell & Niobrara

11. To promote efficient drainage within the Codell-Niobrara Formation of the Application Lands, to protect correlative rights and to avoid waste, the Commission should establish an approximate **1,120-acre** drilling and spacing unit for horizontal well development on the Application Lands, and should amend Order No. 407-741 to authorize no more than one (1) horizontal well within the approximate 640-acre drilling and spacing unit established by such order, for the development and operation of the Codell-Niobrara Formation.

12. To be clear, Applicant maintains that it shall comply with Rule 317.r., 317.s., and the COGCC's horizontal offset evaluation and mitigation rules and guidance. Applicant reserves the right to request a variance to any of the foregoing rules as allowed under Rule 502.b.

13. That the above-proposed drilling and spacing unit will allow efficient drainage of the Codell-Niobrara Formation; will prevent waste; will not adversely affect correlative rights and will assure the greatest ultimate recovery of gas and associated hydrocarbon substances from the reservoirs. The unit of the size and shape specified

above is not smaller than the maximum area that can be economically and efficiently drained by the proposed wells in the unit.

14. That the Applicant is requesting to drill and complete up to twenty-one (21) horizontal wells in order to efficiently and economically recover the oil, gas and associated hydrocarbons from the Codell-Niobrara Formation within the **1,120**-acre drilling and spacing unit composed of the Application Lands and that there will be no adverse effect on correlative rights of adjacent owners.

15. The Applicant maintains that there will be no more than eight (8) new well pads in the unit, unless an exception is granted by the Director.

16. The treated interval of each proposed horizontal well shall be no closer than 460 feet from the unit boundaries (regardless of the lease lines within the unit), without exception being granted by the Director, and the treated interval of any horizontal wellbore permitted to a specific formation shall be no closer than 150 feet to the treated interval of any other **vertical, directional or** horizontal wellbore in the unit that is permitted to the same formation, without exception being granted by the Director.

17. That establishment of the **1,120**-acre drilling and spacing unit composed of the Application Lands shall not preclude designation of overlapping wellbore spacing units and/or overlapping horizontal wellbore spacing units pursuant to Commission Rule 318A.

18. The undersigned certifies that copies of this Application will be served on each interested party within seven (7) days of the filing hereof, as required by Rule 503.e.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing at the Commission's **May**, 2015 hearing, that notice be given as required by law, and that upon such hearing this Commission enter its order:

A. Amending Order No. 407-741 to authorize no more than one (1) horizontal well within the approximate 640-acre drilling and spacing unit established by such order, for the development and operation of the Codell-Niobrara Formation.

B. Establishing an approximate **1,120**-acre drilling and spacing unit for horizontal development on the Application Lands and allowing up to twenty-one (21) horizontal wells in the unit in order to efficiently and economically develop and recover the oil, gas and associated hydrocarbons from each of the Codell-Niobrara Formation in the unit.

C. Providing that the treated interval of each proposed horizontal well shall be no closer than 460 feet from the unit boundaries (regardless of the lease lines within the unit), without exception being granted by the Director, and the treated interval of any horizontal wellbore permitted to a specific formation shall be no closer than 150 feet to the treated interval of any other **vertical, directional or** horizontal wellbore in the unit that is permitted to the same formation and authorizing eight (8) new multi-well pads in

the unit, unless an exception is granted by the Director, without exception being granted by the Director.

D. Finding that an approximate **1,120**-acre drilling and spacing unit for the development of the Codell-Niobrara Formation on the Application Lands will prevent waste, protect correlative rights, and maximize the efficient and economic production of the Codell-Niobrara Formation on the Application Lands.

E. For such other findings and orders as the Commission may deem proper or advisable in this matter.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing in **May** 2015, that notice be given as required by law, and that upon such hearing, the Commission enter its order consistent with Applicant's request as set forth above.

DATED this **10th** day of **April**, 2015.

Respectfully submitted:
