BEFORE THE OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO

IN THE MATTER OF THE PROMULGATION AND ESTABLISHMENT OF FIELD RULES TO GOVERN OPERATIONS IN THE RULISON FIELD, GARFIELD COUNTY, COLORADO	))))	CAUSE NO. 139 DOCKET NO. 0803-SP-06

NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On April 20, 1990, the Commission issued Order No. 139-16, which among other things, established 640-acre drilling and spacing units for certain lands including Section 8, Township 7 South, Range 94 West, 6th P.M. for the production of gas and associated hydrocarbons from the Mesaverde Formation.

On July 10, 2006, the Commission issued Order No. 139-64, which among other things, allowed one well per 10 acres for certain lands including Section 8, Township 7 South, Range 94 West, 6th P.M. for the production of gas and associated hydrocarbons from the Williams Fork Formation of the Mesaverde Group.

On May 10, 2007, the Commission issued Order No. 139-73, which among other things, established 40-acre drilling and spacing units for Section 8, Township 7 South, Range 94 West, 6th P.M., and allowed one well per 10 acres for the production of gas and associated hydrocarbons from the Williams Fork and Iles Formations, with the permitted well to be located no closer than 100 feet from the unit boundary, and no closer than 200 feet from the unit boundaries where 10-acre density drilling has not been allowed, without exception bring granted by the Director of the Oil and Gas Conservation Commission. Said wells shall be drilled from the surface either vertically or directionally from no more than one pad located on a give quarter quarter section unless exception is granted by the Director of the Oil and Gas Conservation Commission.

On February 8, 2008, Williams Production RMT Company, by its attorney, filed with the Commission a verified application for an order to vacate the 40-acre drilling and spacing units established in Order No. 139-73 and establish an approximate 440-acre drilling and spacing unit consisting of the S½, S½ NE¼, SE¼ NW¼ of Section 8, Township 7 South, Range 94 West, 6th P.M., allowing one well per 10 acres for the production of gas and associated hydrocarbons from the Williams Fork and Iles Formations.

All future Williams Fork Formation and Iles Formation wells to be drilled on the application lands should be located downhole anywhere upon such lands but no closer than 100 feet from a lease line or the boundaries of the unit without exception being granted by the Director of the Oil and Gas Conservation Commission. In cases where the unit abuts or corners lands in respect of which the Commission has not at the time of drilling permit application granted the right to drill 10-acre density wells, the well should be located downhole no closer than 200 feet from the boundary or boundaries of the application lands so abutting or cornering such lands without exception being granted by the Director of the Oil and Gas Conservation Commission.

All wells drilled to the Iles Formation will be drilled only in connection with the drilling of Williams Fork Formation wells.

All Williams Fork Formation and Iles Formation wells drilled upon the application lands will be drilled from the surface either vertically or directionally from no more than one pad located on a given quarter quarter section (or lots or parcels approximately equivalent thereto) unless exception is granted by the Director of the Colorado Oil and Gas Conservation Commission.

NOTICE IS HEREBY GIVEN, that the Oil and Gas Conservation Commission of the State of Colorado, pursuant to the above, has scheduled the above-entitled matter for hearing on:

Date:	Monday, March 31, 2008 Tuesday, April 1, 2008
Time:	9:00 a.m.
Place:	Suite 801, The Chancery Building 1120 Lincoln Street

Denver, Colorado 80203

In accordance with the Americans with Disabilities Act, if any party requires special accommodations as a result of a disability for this hearing, please contact Margaret Humecki at (303) 894-2100 ext. 139, prior to the hearing and arrangements will be made.

Pursuant to said hearing in the above-entitled matter at the time and place aforesaid, or at any adjourned meeting, the Commission will enter such orders as it deems appropriate to protect the health, safety and welfare of the public and to prevent the waste of oil and gas, either or both, in the operations of said field, and to carry out the purposes of the statute.

In accordance with Rule 509., any interested party desiring to protest the granting of the application or to intervene on the application should file with the Commission a written protest or intervention no later than March 17, 2008, briefly stating the basis of the protest or intervention. Such interested party shall, at the same time, serve a copy of the protest or intervention to the person filing the application. An original and 13 copies shall be filed with the Commission. **Anyone who files a protest or intervention must be able to participate in a prehearing conference during the week of March 17, 2008.** Pursuant to Rule 503.f., if a party who has received notice under Rule 503.b. wishes to receive further pleadings in the above-referenced matter, that party must file a protest or intervention in accordance with these rules. In accordance with the practices of the Commission, should no protests or interventions be filed in this matter by **March 17, 2008, the Applicant may request that an administrative hearing be scheduled during the week of March 17, 2008.** In the alternative, pursuant to Rule 511.b., if the matter is uncontested, the applicant may request, and the Director may recommend approval on the basis of the merits of the verified application and the supporting exhibits.

IN THE NAME OF THE STATE OF COLORADO

OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO
