NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On February 19, 1992, the Commission issued Order No. 407-87 (amended August 20, 1993), which among other things, established 80-acre drilling and spacing units for the production of oil and/or gas and associated hydrocarbons from the Codell and Niobrara Formations underlying certain lands, with the permitted well locations in accordance with the provisions of Order No. 407-1. Sections 28 and 29, Township 3 North, Range 65 West, 6th P.M. are subject to this Order for the Niobrara Formation.

On April 27, 1998, the Commission adopted Rule 318A., which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all of the Cretaceous Age Formations from the base of the Dakota Formation to the surface. Pursuant to Rule 318A.k., Rule 318A. supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. Rule 318A.d. provides that an operator may allocate production to any drilling and spacing unit with respect to a particular Cretaceous Age Formation consistent with the provisions of Rule 318A. Sections 28 and 29, Township 3 North, Range 65 West, 6th P.M. are subject to Rule 318A., for the production of oil, gas and associated hydrocarbons from the Niobrara Formation.

On August 8, 2011, the Commission amended Rule 318A to allow for the drilling of horizontal wells within the GWA area and the designation of horizontal well wellbore spacing units pursuant to Rule 318A(4).D. The amended Rule 318A was effective on September 30, 2011. Sections 28 and 29, Township 3 North, Range 65 West, 6th P.M. are subject to Rule 318A(4).D. for the Niobrara Formation.

On February 16, 2012, Kerr-McGee Oil & Gas Onshore LP ("Kerr-McGee" or "Applicant"), by its attorneys, filed with the Commission pursuant to § 34-60-116 C.R.S., a verified application ("Application") for an order to pool all interests in an approximate 320-acre designated wellbore spacing unit for the below-described lands ("Application Lands"), for the development and operation of the Niobrara Formation, effective as of the earlier of the date of the Application, or the date that any of the costs specified in C.R.S. § 34-60-116(7)(b)(II) were first incurred for the drilling of the well, and to subject any nonconsenting interests to the cost recovery provisions of C.R.S. § 34-60-116(7):
