NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On April 27, 1988, the Commission adopted Rule 318A which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all Cretaceous Age Formations from the base of the Dakota Formation to the surface. Rule 318A supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. On December 5, 2005, Rule 318A was amended, among other things, to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was again amended, among other things, to address drilling of horizontal wells. Order No. 407-578 includes a portion of the Application Lands but does not apply, and does not affect, this Application. Sections 25 and 26, Township 7 North, Range 63 West, 6th P.M. are subject to Rule 318A for the Codell and Niobrara Formations.

On September 17, 2012, PDC Energy, Inc. ("PDC" or "Applicant"), by its attorneys, filed with the Commission pursuant to § 34-60-116 C.R.S., a verified application ("Application") for an order to pool all interests in three approximate 320-acre designated wellbore spacing units established for the below-described lands ("Application Lands"), for the Carmichael 26M-223 Well (API No. 05-123-35113), the Carmichael 26R-203 Well (API No. 05-123-34709), and the Carmichael 26U-243 Well (API No. 05-123-35078), for the development and operation of the Codell and Niobrara Formations, effective as of the earlier of the date of the Application, or the date that any of the costs specified in C.R.S. § 34-60-116(7)(b)(II) were first incurred for the drilling of each respective well, and to subject any nonconsenting interests to the cost recovery provisions of C.R.S. § 34-60-116(7):
