NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On December 19, 1983, the Commission issued Order No. 407-1 (amended March 29, 2000) which, among other things, established 80-acre drilling and spacing units for the production of oil, gas and associated hydrocarbons from the Codell Formation, with the unit to be designated by the operator drilling the first well in the quarter section. The permitted well shall be located in the center of either 40-acre tract within the unit with a tolerance of 200 feet in any direction. The operator shall have the option to drill an additional well on the undrilled 40-acre tract in each 80-acre drilling and spacing unit. Sections 28, 29, 32 and 33, Township 1 North, Range 67 West, 6<sup>th</sup> P.M. are subject to this Order for the Codell Formation.

On February 19, 1992, the Commission issued Order No. 407-87 (amended August 20, 1993) which, among other things, established 80-acre drilling and spacing units for the production of oil, gas and associated hydrocarbons from the Codell and Niobrara Formations, with the permitted well locations in accordance with the provisions of Order No. 407-1. Sections 28 and 33, Township 1 North, Range 67 West, 6<sup>th</sup> P.M. are subject to this Order for the Codell and Niobrara Formations.

On April 27, 1988, the Commission adopted Rule 318A which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all Cretaceous Age Formations from the base of the Dakota Formation to the surface. Rule 318A. supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. On December 5, 2005, Rule 318A was amended, among other things, to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was again amended, among other things, to address drilling of horizontal wells. Sections 28, 29, 32 and 33, Township 1 North, Range 67 West, 6<sup>th</sup> P.M. are subject to Rule 318A for the Codell and Niobrara Formations.

On December 13, 2012, Kerr-McGee Oil & Gas Onshore LP ("Kerr-McGee" or "Applicant"), by its attorneys, filed with the Commission pursuant to § 34-60-116 C.R.S., a verified application ("Application") for an order to pool all interests within five approximate 200 to 400-acre designated wellbore spacing units established for the below-described lands ("Application Lands"), for the development and operation of the Codell and Niobrara Formations, effective as of the earlier of the date of the Application, or the date that any of the costs specified in C.R.S § 34-60-116(7)(b)(II) were first incurred for the drilling of the Howard 30C-33HZ Well, Howard 29C-33HZ Well, Howard 29N-33HZ Well, Howard 4C-33HZ Well, and Howard 4N-33HZ Well ("Wells"), and to subject any nonconsenting interests to the cost recovery provisions of C.R.S. § 34-60-116(7):
