NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On February 19, 1992, the Commission issued Order No. 407-87 (amended August 20, 1993) which, among other things, established 80-acre drilling and spacing units for the production of oil, gas and associated hydrocarbons from the Codell and Niobrara Formations, with the permitted well locations in accordance with the provisions of Order No. 407-1. Section 9, Township 6 North, Range 66 West, 6th P.M. is subject to this Order for the Niobrara Formation.

On April 27, 1988, the Commission adopted Rule 318A which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all Cretaceous Age Formations from the base of the Dakota Formation to the surface. Rule 318A supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. On December 5, 2005, Rule 318A was amended, among other things, to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was again amended, among other things, to address drilling of horizontal wells. Section 9, Township 6 North, Range 66 West, 6th P.M. is subject to Rule 318A for the Niobrara Formation.

On January 24, 2013, Bill Barrett Corporation ("BBC" or "Applicant"), by its attorneys, filed with the Commission pursuant to §34-60-116 C.R.S., a verified application ("Application") for an order to: (1) maintain the approximate 80-acre drilling and spacing units established by Order No. 407-87 for Section 9, Township 6 North, Range 66 West, 6th P.M.; and (2) establish an approximate 640-acre drilling and spacing unit for the below-listed lands ("Application Lands"), and approve up to 20 horizontal wells within the unit, for the production of oil, gas and associated hydrocarbons from the Niobrara Formation, with the treated interval of the wellbore to be located no closer than 460 feet from the boundaries of the proposed unit and no closer than 150 feet from the treated interval of any other wellbore located in the unit, without exception being granted by the Director.

Township 6 North, Range 66 West, 6th P.M.
Section 9: All

Under this Application, BBC is not requesting a change to the unit acreage assigned to these wells, is requesting that Order No. 407-87 be maintained, and the distribution of proceeds from each well continue to be allocated on an 80-acre basis.
