NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On April 27, 1988, the Commission adopted Rule 318A which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all Cretaceous Age Formations from the base of the Dakota Formation to the surface. Rule 318A supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. On December 5, 2005, Rule 318A was amended, among other things, to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was again amended, among other things, to address drilling of horizontal wells. Section 34, Township 5 North, Range 63 West, 6th P.M. is subject to Rule 318A for the Niobrara Formation.

On January 21, 2013, Bonanza Creek Energy Operating Company LLC ("Bonanza" or "Applicant"), by its attorneys, filed with the Commission pursuant to §34-60-116 C.R.S., a verified application ("Application") for an order to: 1) confirm an approximate 320-acre designated wellbore spacing unit established for the below-described lands ("Application Lands"), and approve one horizontal well within the unit, for the production of oil, gas and associated hydrocarbons from the Niobrara Formation, with the treated interval of the permitted wellbore to be located no closer than 460 feet from the boundaries of the unit, without exception being granted by the Director; and 2) pool all nonconsenting interests in the Application Lands, for the development and operation of the Niobrara Formation, effective as of the earlier of the date of the Application, or the date that any of the costs specified in C.R.S. §34-60-116(7)(b)(II) were first incurred to accommodate the drilling of the North Platte P-T-34HZ Well (API No. 05-123-35968) ("Well"), and to subject any nonconsenting interests to the cost recovery provisions of C.R.S. §34-60-116(7):
