NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On April 27, 1988, the Commission adopted Rule 318A, which among other things, allowed, on unspaced lands, certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all Cretaceous Age Formations from the base of the Dakota Formation to the surface. Rule 318A. supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. On December 5, 2005, Rule 318A was amended, among other things, to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was again amended, among other things, to address drilling of horizontal wells. Section 34, Township 7 North, Range 64 West, 6<sup>th</sup> P.M. is subject to Rule 318A for the Codell-Niobrara Formation.

On July 18, 2013, Great Western Operating Company, LLC ("Great Western" or "Applicant"), by its attorneys, filed with the Commission pursuant to §34-60-116 C.R.S., a verified application ("Application") for an order to establish an approximate 320-acre horizontal drilling and spacing unit for the below-described lands ("Application Lands"), and approve up to eight horizontal wells within the unit, for the production of oil, gas, and associated hydrocarbons from the Codell-Niobrara Formation, with the treated interval of the wellbore to be located no closer than 330 feet from the unit boundaries and no closer than 150 feet from the treated interval of any other wellbore located in the unit, without exception being granted by the Director:

Township 7 North, Range 64 West, 6<sup>th</sup> P.M.  
Section 34: W½

Applicant is seeking a Surface Use Agreement and surface owner consent to locate the wellpads outside of the designated GWA drilling windows. If, however, there is a change in the location of the wellpads, then Applicant requests approval to locate the wellpads for the proposed horizontal wells anywhere within the unit, or on adjacent lands, subject to Rule 318A.

Applicant requests a finding by the Commission that Applicant may use its existing surface blanket bond to locate the wellpads for the proposed horizontal wells at a surface location outside the applicable GWA drilling window, within the unit. Applicant will identify the GWA window to be forfeited in its Rule 511 testimony.
