NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

Rule 318.a. of the Rules and Regulations of the Oil and Gas Conservation Commission requires that, on unspaced lands, wells drilled in excess of 2,500 feet in depth be located not less than 600 feet from any lease line, and located not less than 1,200 feet from any other producible or drilling oil or gas well when drilling to the same common source of supply. Section 16, Township 4 North, Range 62 West, 6<sup>th</sup> P.M. is subject to Rule 318.a for the Codell and Niobrara Formations.

On April 27, 1988, the Commission adopted Rule 318A which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all Cretaceous Age Formations from the base of the Dakota Formation to the surface. Rule 318A supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. On December 5, 2005, Rule 318A was amended, among other things, to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was again amended, among other things, to address drilling of horizontal wells. Section 16, Township 4 North, Range 62 West, 6<sup>th</sup> P.M. is subject to Rule 318A for the Codell and Niobrara Formations.

On October 17, 2013 (Amended November 12, 2013), Bill Barrett Corporation ("BBC" or "Applicant"), by its attorneys, filed with the Commission pursuant to §34-60-116 C.R.S., a verified application ("Application") for an order to: 1) establish an approximate 640-acre drilling and spacing unit for the below-described lands ("Application Lands") and approve an additional fifteen horizontal wells, for a total of up to sixteen horizontal wells, within the unit, for the production of oil, gas and associated hydrocarbons from the Niobrara Formation, with the productive interval of the wellbore to be located no closer than 460 feet from the unit boundaries, and no closer than 250 feet from the productive interval of any other wellbore located in the unit, and 2) approve up to four horizontal wells within the unit, for the production of oil, gas, and associated hydrocarbons from the Codell Formation, with the productive interval of the wellbore to be located no closer than 460 feet from the unit boundaries, and no closer than 250 feet from the productive interval of any other wellbore located in the unit, without exception being granted by the Director:

Township 4 North, Range 62 West, 6<sup>th</sup> P.M.  
Section 16: All

Applicant states the proposed wells shall be located on no more than four multi-well pads within the unit, with no more than one multi-well pad per quarter quarter section, subject to Rule 318A, or on adjacent lands with surface owner consent.
