17. The SRC Wiedeman A-5-3NBHZ well, SRC Wiedeman 11-5-3NCHZ well, SRC Wiedeman 21-5-3CHZ well, SRC Wiedeman 22-5-4NBHZ well, SRC Wiedeman 12-5-4CHZ well, SRC Wiedeman 22-5-4CHZ well, SRC Wiedeman 12-5-4NCHZ well, and SRC Wiedeman 21-5-3NBHZ well are collectively referred to herein as the "Subject Wells."

18. On April 15, 2015, by email, Commission Staff suspended approval of Rule 318A.e. wellbore spacing units for the Subject Wells due to apparent lack of notice to an Owner within the wellbore spacing units.

19. On September 4, 2015, a Commission Hearing Officer dismissed Applicant's pooling application (Cause No. 407, Doc. No. 150700497) for the Subject Wells.

20. The Subject Wells were all drilled from a consolidated well pad located in the W½NE¼ of Section 5, Township 5 North, Range 66 West, 6th P.M., with spud dates of September 3, 2014 and November 13, 2014.

21. Exhibit D attached hereto, and incorporated by reference herein, lists the interested parties (mineral owners and working interest owners) in the Application Lands together with their addresses. Applicant notified the working interest owners and unleased mineral interest owners in the proposed WSU Nos. 1-8 pursuant to Rule 318A.e(5). Applicant certifies that copies of the Application will be mailed to all persons owning an interest in the mineral estate of the Application Lands listed on Exhibit B within seven days of the date hereof. Applicant further certifies that all unleased and/or non-consenting mineral owners have been, or will be, offered a reasonable lease offer or to voluntarily participate in the drilling and completion of the Wells as required by Rule 530, at least thirty-five (35) days prior to the hearing on this Application. To date, however, not all of such mineral owners have elected to participate by agreeing to bear their respective proportionate shares of the costs and risks of drilling, completing and operating the Wells.

22. Applicant states that the mineral leasehold interests in the E $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 5 of the Application Lands are subject to pending litigation before the United States District Court for the District of Colorado, Civil Action No. 1:15-cv-01337-RBJ. Applicant disputes Briller, Inc.'s contention that it has a valid leasehold interest in WSU Nos. 1-8. Without waiving any claims or defenses in the pending litigation and solely for notice purposes of this Application pursuant to Rules 318 A.e (5), 507.b(2) and 530, Applicant hereby notices Briller, Inc. as listed on Exhibit B. By providing notice to Briller, Inc., Applicant is in no way conceding that Briller, Inc. or any of its affiliated entities or principals have any interests in the Application Lands and WSU Nos. 1-8, leasehold or otherwise, and Applicant expressly hereby reserves its rights, claims, and defenses to continue to claim or contend in any court or regulatory proceeding that Briller, Inc. or any of its affiliated entities or principals have no interests in the Application Lands and WSU Nos. 1-8. Applicant submits that any payments attributable to production from the E $\frac{1}{2}$ NE $\frac{1}{4}$ from the Subject Wells will be suspended, and all accounting of any non-consenting pooled interest in the E $\frac{1}{2}$ NE $\frac{1}{4}$ will not occur until such time as the United States District Court or any other court with appropriate jurisdiction enters a final order adjudicating the status of leasehold ownership in the E $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 5 of the Application Lands.

23. Applicant, pursuant to the applicable Colorado Revised Statutes and COGCC Rules, including Rule 530 and §34-60-116, C.R.S., and in order to prevent waste, protect correlative rights and foster the best interests of conservation of oil and gas resources, seeks an order to pool all interests, including but not limited to, any non-consenting interests and leased mineral interests, in WSU Nos. 1-8 designated for the Application Lands for the development and operation of the Codell and Niobrara Formations.

24. Applicant requests that the Commission's pooling order issued with respect to this Application be made effective as of the date of this Application, or the date that the costs specified in §34-60-116(7)(b), C.R.S. are first incurred for the drilling of the Subject Wells in WSU Nos. 1-8.

25. Further, Applicant requests that any non-consenting interests with whom the Applicant has been unable to secure a lease or other agreement to participate in the drilling of the Subject Wells, be made subject to the cost recovery provisions of §34-60-116(7), C.R.S.

26. Applicant submits the granting of this Application is in accord with the Oil and Gas Conservation Act §§34-60-101, *et seq*, C.R.S., and Commission Rules.

27. Applicant requests that relief granted under this Application should be effective upon oral order of the Commission.

28. Applicant filed concurrently herewith its application to re-establish and maintain drilling and spacing units identified in this Application ("Spacing Application").

WHEREFORE, Applicant respectfully requests that this matter be set for hearing at the Commission's October 26–27, 2015 hearing, to be heard concurrently with Applicant's Spacing Application, that notice thereof be given as required by law, and that upon such hearing this Commission enter its order consistent with Applicant's request as follows:

ORDER DISMISSING APPLICATION FOR POOLING

A prehearing conference was held regarding Synergy's Pooling Application No. 150700497 on Thursday, September 3, 2015. Counsel for Briller, Inc. and Robert Loveless, D/B/A R.W.L Enterprises (collectively "Briller") made a motion to dismiss Synergy's pooling application on the basis that the pooling application is unsupported by valid spacing.

The Hearing Officer agrees that valid spacing is a necessary predicate to pooling under C.R.S. § 34-60-116(6): "In the absence of voluntary pooling, the commission, upon the application of any interested person, may enter an order pooling all interests *in the drilling unit* for the development and operation thereof." (Emphasis added). On April 15, 2015, by email to both Synergy and Briller, Jane Stanczyk, Permitting Manager for the Commission, suspended approval of the wellbore spacing units at issue in this pooling application due to an apparent lack of notice to an Owner within the wellbore spacing units. Synergy does not contest the lack of notice that precipitated Stanczyk's decision. It follows that without valid spacing, the Commission cannot consider Synergy's pooling application at the present time. Briller's motion to dismiss is granted. Synergy is granted leave to file a late application for the Commission's October 26, 2015 hearing.

Any questions concerning this Order or any other aspect of the case may be addressed to the Hearing Officer by email (jennifer.bock@state.co.us) with copy to the other party. Notwithstanding the above, the parties are ordered to comply with the applicable Rules and Regulations of the Colorado Oil and Gas Conservation Commission, the State Administrative Procedure Act, and the Rules of Civil Procedure.
