COLORADO.)

Cause No. _____
Docket No. 160800353
Type: SPACING AND
INCREASED DENSITY

APPLICATION

Extraction Oil & Gas, LLC, Operator No. 10459 ("Applicant" or "Extraction"), by and through its attorneys, Welborn Sullivan Meck & Tooley, P.C., respectfully submits this Application to the Oil and Gas Conservation Commission of the State of Colorado ("Commission") for an order vacating Order No. 407-87 as it pertains to the S½S½ of Section 12 and the N½N½ of 13, Township 1 South, Range 69 West, 6th P.M., establishing an approximate 320-acre drilling and spacing unit and establishing well location rules applicable to the drilling of wells and producing of oil, gas and associated hydrocarbons from the Codell and Niobrara Formations covering certain lands in Broomfield and Boulder Counties, Colorado. In support of its Application, Applicant states as follows:

1. Applicant is a limited liability company duly authorized to conduct business in Colorado.
2. Applicant owns leasehold interests in the following lands ("Application Lands"):
Township 1 South, Range 69 West, 6th P.M.
Section 12: S½S½
Section 13: N½N½

Broomfield and Boulder Counties, Colorado

A reference map of the Application Lands is attached hereto.

3. On February 19, 1992, the Commission entered Order No. 407-87 (Amended), which established 80-acre drilling and spacing units for the production of oil and/or gas from the

Codell-Niobrara Formations underlying lands in Adams, Boulder, Jefferson, Larimer, and Weld Counties. The Order allows for dual completion and downhole commingling as to both oil and gas in the Codell-Niobrara Formation. The Application Lands are subject to this Order.

4. The Codell and Niobrara Formations are common sources of supply under the Application Lands.

5. To promote efficient drainage of the Codell and Niobrara Formations within the Application Lands and to avoid waste, the Commission should vacate Order No. 407-87 as it pertains to the Application Lands and establish an approximate 320-acre drilling and spacing unit covering the Application Lands described below for production of oil, gas and associated hydrocarbons from the Codell and Niobrara Formations:

Township 1 South, Range 69 West, 6th P.M.

Section 12: S $\frac{1}{2}$ S $\frac{1}{2}$

Section 13: N $\frac{1}{2}$ N $\frac{1}{2}$

6. Applicant is requesting to drill and complete up to one (1) horizontal well in the approximate 320-acre drilling and spacing unit described above for production of oil, gas and associated hydrocarbons from the Codell and Niobrara Formations with the surface location to be located at a legal location in the above described drilling and spacing unit or on adjacent lands. Applicant further requests that the treated interval of each wellbore be no closer than 600 feet from a unit boundary.

7. The Liley Green MD #12-3J (API #05-013-06337) was spud on September 25, 1995, in the SESW, Section 12, Township 1 South, Range 69 West, 6th P.M., for the development and production of, *inter alia*, the Niobrara and Codell Formations. This well is currently producing. Applicant's affiliate, 8 North, LLC, is the Operator of this well and plans to plug and abandon the well pursuant to the Commission Rules as soon as production is established in the requested drilling and spacing unit.

8. The Mapz MD #13-2 well (API #05-013-06368) was spud on June 22, 1993, in the NWNE, Section 13, Township 1 North, Range 69 West, 6th P.M., for the development and production of the Niobrara and Codell Formations. This well is currently producing. Applicant's affiliate, 8 North, LLC, is the Operator of this well and plans to plug and abandon the well pursuant to the Commission Rules as soon as production is established in the requested drilling and spacing unit.

9. Applicant requests authority to drill only those wells necessary to determine the well density which allows the most efficient drainage of the Codell and Niobrara Formations, prevents waste, does not adversely affect correlative rights, and assures the greatest ultimate recovery of oil, gas and associated hydrocarbon substances from the Codell and Niobrara Formations. The drilling and spacing units are not smaller than the maximum area that can be economically and efficiently drained by the proposed wells in such drilling and spacing unit. Applicant further maintains that wells drilled in the drilling and spacing unit will have no adverse effect on correlative rights of adjacent owners.

10. The names and addresses of the interested parties according to the information and belief of the Applicant are set forth in Exhibit A attached hereto and made a part hereof, and the undersigned certifies that copies of the original Application shall be served on each interested party as required by Rule 503.e., 507.b.(1), and 507.b.(5).

WHEREFORE, Applicant respectfully requests that this matter be set for hearing, that notice be given as required by law and that, upon such hearing, this Commission enter its order consistent with Applicant's proposals as set forth above.

Dated this 30th day of June, 2016

Respectfully submitted,
WELBORN SULLIVAN MECK & TOOLEY, P.C.
