On August 2, 2016, Extraction Oil & Gas LLC (Operator No. 10459) ("Extraction" or "Applicant") submitted a request for hearing pursuant to Rule 318A.e.(5) requesting a hearing on an objection to a proposed horizontal wellbore spacing unit made by PDC Energy, Inc. (Operator No. 69175). Extraction requests an order to:

1) Establish an approximate 800-acre horizontal wellbore spacing unit pursuant to Rules 318A for the Application Lands, wherein Extraction plans to drill five horizontal wells, namely, the AJ-Evans wells, for the production of oil, gas and associated hydrocarbons from the Codell-Niobrara Formation. APPLICABLE ORDERS AND RULES

(available online at: <http://cogcc.state.co.us>, under "Regulation," then select "Orders" or "Rules")

Rule 318A supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. On December 5, 2005, Rule 318A was amended, among other things, to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A

was again amended, among other things, to address drilling of horizontal wells. The Application Lands are subject to Rule 318A for the Codell and Niobrara Formations.

- Rule 318A.e.(5)C. provides that if an objection to a proposed Rule 318A.a.(4) horizontal wellbore spacing unit is received, the operator proposing a wellbore spacing unit may seek a hearing before the Commission on the objection and creation of the unit.
