Dear Ms. Hook:

2. Target Formations
This well will be drilled to a total depth to sufficiently test the Codell-Niobrara formations.
3. Surface and Bottom-Hole Location
1408' FNL, 2457' FWL Section 19, T5N, R63W
4. Anticipated Spud Date
Second Quarter 2010

Pursuant to the aforementioned rule, you have twenty (20) days from your receipt of this notice to object to this proposal. In the event you do not respond to this notice or enter an objection within the established time period, the proposed 160-acre spacing unit set forth herein will be established. **However, should you have no objection to this proposal, your cooperation of a written reply, either faxed or mailed to that effect as soon as possible would be greatly appreciated so that PDC may timely continue with the permitting process for this well. Also, if you have no objections, would you please forward any title opinions, revenue decks with social security numbers and addresses concerning the lands owned by Noble Energy in the spacing unit to the undersigned for further processing, so that we may expedite the well proposal process.**

A formal well proposal, including PDC's proposed Authority for Expenditure and Joint Operating Agreement will be forthcoming under separate cover.

Thank you in advance for your timely consideration and response to this proposal. Please feel free to contact Carrie Eggleston at (303) 860-5807 should you have any questions.
