- 1) Note surface casing setting depth change from 500' to 660'. Increase cement coverage accordingly.
- 2) Submit Form 42 electronically to COGCC 48 hours prior to MIRU.
- 3) Comply with Rule 317.i and provide cement coverage from TD to a minimum of 200' above Niobrara. Verify coverage with cement bond log.

Operator must meet Water Well Testing requirements as per amended Rule 318Ae(4)

Permit	Final review complete.	10/9/2012 9:12:08 AM
Permit	Attached corrected exception location request letter: Operator requests approval of a Rule 318Aa and Rule 318Ac exception location: Wellhead is to be located outside of a GWA drilling window and will be located more than 50' from an existing well location. Request and waivers attached. Corrected Lease Descrioption as per OPR. Final Review Completed. No public comment received.	9/24/2012 11:14:32 AM
Permit	Requested Except loc request and waiver from opr. Form on hold.	9/14/2012 2:55:51 PM
LGD		3/7/2012 3:55:10 PM
	The Town of Windsor is in receipt of COGCC notification of the abovementioned applications for oil and gas facilities. Please be advised that the subject property is located within the Town's Growth Management Area (GMA). The Town's Comprehensive Plan states, "The GMA is intended to define those specific areas within the planning area where it is most logical to extend urban services in the near term, that is, within the next five to ten years."	
	Below please find the conditions of approval that are typically applied to conditional use grants for oil and gas operations located within Town. Therefore, the Town recommends the following conditions be placed on the abovementioned oil and gas facilities:	
	1.Prior to the commencement of drilling, the applicant shall submit comprehensive "Drilling and Site Improvement Plans" for review and approval by the Town.Such plans shall address initial drilling activities, initial installation of site improvements and details, and on-going perpetual maintenance of the subject site including, but not limited to, the following:	
	a.Site access plan.The Drilling and Site Improvement Plans and supplemental information shall address site access points and haul routes for review and approval.	
	b.Public street clean-up and tracking prevention.The Drilling and Site Improvement Plans and supplemental information shall include a tracking pad for review and approval.	Same 2

Date Run: 10/12/2012 Doc [#400323385] Well Name: VARRA 5-13

- c.Site grading.The Drilling and Site Improvement Plans and supplemental information shall address site grading, including any earth berms for emergency containment.
- d.Site lighting.The Drilling and Site Improvement Plans and supplemental information shall include details regarding site lighting fixtures and locations.Security and other site lighting shall utilize full cutoff light fixtures to mitigate light pollution.
- e.Temporary screening.The applicant shall install a buffer to screen the initial drilling activities and installation of site improvements from surrounding neighborhoods and streets.
- f.Fencing.The Drilling and Site Improvement Plans shall depict fencing of the perimeter of the site.Fencing materials shall be reviewed for approval by the Town based upon the character of the surrounding neighborhood.
- g.Oil and gas equipment.
- (1)The applicant shall utilize electric motors in order to mitigate the noise impacts to the neighboring properties.
- (2) The applicant shall ensure that the wells and tanks are of the minimum size required to satisfy present and future functional requirements to mitigate visual impacts.
- (3)Low profile tanks shall be utilized and shall be installed in the least visible manner possible.
- (4)All tanks and equipment shall be painted to blend-in with the surrounding landscape.
- h.Air quality.
- (1)The applicant shall participate in any required Environmental Protection Agency (EPA) air quality monitoring and/or testing by allowing EPA to install equipment on site for said monitoring and testing.
- (2)The applicant shall install and operate an emissions control device (ECD) capable of reducing Volatile Organic Compound (VOC) emissions on the subject oil and gas equipment in accordance with Colorado Oil and Gas Conservation Commission (COGCC) and/or the Colorado Department of Public Health and Environment (CDPHE) rules and regulations.
- (3)The applicant shall submit to the Town copies of all air emissions reporting as required by the COGCC and/or the CDPHE's Air Pollution Control Division.
- i.Water quality.
- (1)The applicant shall ensure that any hydrocarbon discharges from the site comply with all state and federal water quality requirements.
- (2)The applicant shall participate in the Colorado Oil and Gas Association (COGA) Baseline Groundwater Quality Sampling Program utilizing independent third party sampling and laboratories and shall provide to the Town test results obtained before and after drilling operations.
- j.Emergency containment. The secondary containment berm surrounding all storage vessels shall be designed and constructed to contain a minimum of 110% of the volume of the largest vessel located within the containment area or to State of Colorado standards, whichever requirements are more stringent.
- k. Waste disposal. The applicant shall submit to the Town copies of all waste management reports as required by the COGCC and/or the CDPHE rules and regulations.

I.The following certification blocks shall be included on the Drilling and Site Improvement Plans:	
(1)A signed owner's acknowledgement certification block.	
(2)A signed drilling operator's acknowledgement certification block.	
m.The following notes shall be included on the Drilling and Site Improvement Plans:	
(1)The applicant shall comply with all rules and regulations of the Colorado Oil and Gas Conservation Commission (COGCC).	
(2)The applicant shall comply with all rules and regulations of the Colorado Department of Public Health and Environment (CDPHE).	
(3)The applicant shall maintain on-going compliance with all conditions of the Town and Windsor-Severance Fire Rescue.	
(4)The facilities shall be kept clean and otherwise properly maintained at all times.	
(5)The existing access may be utilized for oil and gas well activities. This access point is temporary and will be required to be removed at such time that permanent access is available in the future.	
2. The applicant shall address and comply with the conditions of Windsor-Severance Fire Rescue.	
Operator corrected casing information.	3/6/2012 4:44:05 PM
Return to Draft:  1. All casing information required for each casing string, including conductor pipe; if no conductor pipe is used, this must be noted in the Operator Comments section. The following comments are FYI:  1. Field name and number does not match GIS mapping information.  2. Spacing order does not match location or GIS mapping information.	3/5/2012 4:18:10 PM
	Improvement Plans:  (1)A signed owner's acknowledgement certification block.  (2)A signed drilling operator's acknowledgement certification block.  m.The following notes shall be included on the Drilling and Site Improvement Plans:  (1)The applicant shall comply with all rules and regulations of the Colorado Oil and Gas Conservation Commission (COGCC).  (2)The applicant shall comply with all rules and regulations of the Colorado Department of Public Health and Environment (CDPHE).  (3)The applicant shall maintain on-going compliance with all conditions of the Town and Windsor-Severance Fire Rescue.  (4)The facilities shall be kept clean and otherwise properly maintained at all times.  (5)The existing access may be utilized for oil and gas well activities. This access point is temporary and will be required to be removed at such time that permanent access is available in the future.  2.The applicant shall address and comply with the conditions of Windsor-Severance Fire Rescue.  Operator corrected casing information.  Return to Draft:  1. All casing information required for each casing string, including conductor pipe; if no conductor pipe is used, this must be noted in the Operator Comments section. The following comments are FYI:  1. Field name and number does not match GIS mapping information.
