**COGCC Comments**

Comment	User	Date
Location does not meet reclamation regulations. Some revegetation within project area but there are still large areas with little to no vegetation. Revegetation along a transect in the project area is 17 percent of the vegetation in a reference area transect. See attached transect datasheet and photos.	trujilloam	01/05/2016
Submit a detailed plan describing reclamation of the project area by January 31st, 2016. The plan should include a minimum of a detailed schedule for reclamation activities, weed management plan, stormwater management plan during and after reclamation activities, fertilizer/soil amendments (if needed), seed mixture, seed application method, mulch type, water (if needed). Reseeding activities should be completed no later than the April 15, 2016.
