Waters of the State ☒ Residence/Occupied Structure ☐ Livestock ☐ Public Byway ☐ Surface Water Supply Area ☐

As defined in COGCC 100-Series Rules

Describe what is known about the spill/release event (what happened -- including how it was stopped, contained, and recovered):

The production pit on the Hill 33-22 well site overflowed. The Produced water did leave location and ran offsite to the east flowing into a landowner pond going past the pond ending in a dry arroyo. The pond and arroyo were considered waters of the state and a call was made to the CDPHE Hotline. The well was turned off until the pit level can be lowerd to below freeboard. It is estimated the 15bbls of produced water were spilled.
