Spill report taken by:

Kosola, Jason

Spill/Release Point ID:

444983

## SPILL/RELEASE REPORT (INITIAL)

This form is to be submitted by the party responsible for the oil and gas spill or release. Any spill or release which may impact waters of the State must be reported as soon as practicable; any spill over 20 bbls must be reported within 24 hours and all spills over five bbls must be reported within ten days. Submit a Site Investigation and Remediation Workplan (Form 27) when requested by the Director.

#### Land Use:

Current Land Use: NON-CROP LAND Other(Specify): \_\_\_\_\_Weather Condition: Warn sunnySurface Owner: FEE Other(Specify): \_\_\_\_\_

#### Check if impacted or threatened by spill/Release (please answer Yes/No to all that apply):

Waters of the State ☒ Residence/Occupied Structure ☐ Livestock ☐ Public Byway ☐ Surface Water Supply Area ☐

As defined in COGCC 100-Series Rules

Describe what is known about the spill/release event (what happened -- including how it was stopped, contained, and recovered):

We had a spill that occurred on the gathering line going to the E. Budd 24-33 well site. The Lease Operator found a break in the gathering line on the access road to the site. The leak was isolated immediately and is being prepped for repair. The leak ran down the lease road to the south entering a meadow then through a culvert headed back north and ended in a dry drainage that was considered Waters of the State with no live water. It is estimated that 400bbls of produced water were spilled. A call was made to the CDPHE Hotline. Water from this spill normally goes to CDPHE permitted outfall #065. The spill occurred on the access road to the referenced site which is in a different section and QTRQTR than the well site.
