Kristen-

Please provide an update.

Thanks
Alex

All,

We have an environmental firm under contract and a trackhoe on standby for next week for the remediation plan. I am hoping to have a remediation form to the COGCC by Monday for approval of a remediation plan and the work completed by Friday of next week. The plan should follow our discussion and call for excavation and removal of contamination and subsequent testing of sidewalls and depths below 12'.

I will send a follow up email only if this timeline for the remediation plan is not met, otherwise the remediation plan approval will dictate the remediation work timeline.

Thank you!
