## Inspection Photos

Location Name: HUTCHISON #9-67-3-7

API: 05-123-31711

**Photo 1.** Photo taken from the eastern well location, facing West. Unable to find evidence of oil and gas activities and/or disturbances. Well location appears reflective of reference areas. Crested wheatgrass (*Agropyron cristatum*) does appear to be at a higher density than reference areas but Blue grama (*Bouteloua gracilis*) was observed within the reclamation area.

**Photo 2.** Photo taken from the eastern well location, facing East along the access road. Crested wheatgrass does appear to be at a higher density along the access road than reference areas but Blue grama was observed within the reclamation area.
