

Photo 1. View from the western edge of the project area facing center. Frac tanks are lining the northern, eastern, and southern edges of the working area.

Photo 2. View of the western portion of the project area from the well pad entrance facing northeastward. Revegetation within the outer revegetation area is progressing with grasses such as western wheatgrass (*Pascopyrum smithii*) and brome grass (*Bromus* sp.).

Photo 3. View of the southern portion of the project area from the southwestern edge facing eastward.
