

EASEMENT, RIGHT-OF-WAY, AND SURFACE USE AGREEMENT

This Easement, Right-of-Way and Surface Use Agreement ("**Agreement**") is entered into and effective this 21 day of August, 2017, by and between Shable Homestead, LLC, whose address is 12705 Highway 60, Milliken, CO 80543, and Bison Oil & Gas II, LLC. ("**Operator**"), with offices at 518 17th Street, Suite 1800, Denver, CO 80202 sometimes referred to each as a "**Party**," or collectively as the "**Parties**."

WITNESSETH:

For and in consideration of the covenants and agreements contained herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. **OWNERSHIP.** Owner is the surface owner of certain lands more particularly described as follows:

Township 8 North, Range 60 West, 6th P.M., Weld County, Colorado

Section 4: NW/4;

Section 5: All Save and Except the N/2 NE/4;

Containing 720.00 acres, more or less

Weld County, Colorado (the "**Lands**").

Operator, or its affiliates, owns a working interest, leasehold interest, or other interest under certain oil and gas leases covering all or portions of the Lands, or lands pooled or included in a spacing unit therewith, or lands adjacent thereto (the "**Lease**," or "**Leases**").

2. **OIL AND GAS OPERATIONS ON THE LANDS.**

A. Operator desires to drill, complete, operate, produce and maintain oil or gas wells (the "**Wells**") on the Lands or the Leases, the subsurface locations of which may be under lands other than the Lands. In order for Operator, its agents, consultants, successors or assigns to explore, permit, survey, obtain consents and waivers, develop, drill, construct, complete, recompleat, produce, maintain, rework, equip, deepen, stimulate, re-stimulate, assess, evaluate, inspect, test, update, upgrade, operate, secure, and transport production from the Wells and all facilities associated therewith including, but not limited to, access roads (including existing roads on the Lands) ("**Access Roads**"), pipelines, infrastructure, equipment, surface appurtenances and production facilities including but not limited to emission control devices, vapor recovery towers, vapor recovery units, flowlines, gathering lines, transmission lines, temporary above ground water lines, temporary above ground completion fluid pipelines, separators, tank batteries, MLVTs, LACT units, electrical lines, utility lines and any other facilities or property necessary for Operator to conduct operations on the Wells (each a "**Facility**," collectively, the "**Facilities**"), Owner recognizes it is necessary that Operator, its agents, consultants, successors or assigns enter and utilize a portion of the Lands in order to operate and maintain the Wells and Facilities. Owner and Operator desire to mitigate any surface damage to the Lands and to set forth their agreements with respect to future operations on the Lands, to accommodate operations and development of the surface, and to provide for cooperation between the Parties and the mutual enjoyment of the Parties' respective rights in and to the Lands. This Agreement sets forth the Parties' rights and obligations regarding the development and use of the Lands by Owner and operations conducted by Operator.

3. **SURFACE EASEMENT AND RIGHT-OF-WAY; SUBSURFACE EASEMENT.**

A. Owner hereby grants, assigns, and conveys to Operator, its successors and assigns and each of their agents, employees, contractors and subcontractors, a perpetual, exclusive easement and right-of-way on, over, across, and through the Lands for the purpose of drilling, completing, operating, securing, producing, evaluating, deepening, reworking, equipping, maintaining, plugging and abandoning of Wells, constructing, using and maintaining Access Roads and locating, constructing, entrenching, operating, maintaining, repairing, altering, replacing and removing the Facilities and all necessary appurtenant facilities, for the purposes specified in this Agreement including ingress and egress from the Facilities across the Lands.

B. In those circumstances where the Operator owns, or is lessee of, the minerals underlying the Lands, Owner acknowledges and understands that Operator holds a perpetual, exclusive easement and right-of-way burdening the Lands with all the rights and privileges granted under this Agreement, the Lease, or lease associated with the Lands.

C. Owner grants Operator the right to drill, complete, operate and maintain Wells on the Lands that produce oil, natural gas, produced liquids, and associated hydrocarbons from lands other than the Lands and lands pooled with the Lands.

D. Owner further grants Operator a subsurface easement through the Lands for the purpose of drilling, completing, operating, re-stimulating, reworking and maintaining oil and gas wells that may produce and drain oil, natural gas, produced liquids and associated hydrocarbons from lands other than the Lands and lands pooled with the Lands.

E. Owner further grants Operator the right to gather to the Lands and transport from the Lands oil, natural gas, produced liquids and associated hydrocarbons produced from the Lands and lands other than the Lands and lands pooled with the Lands, and to transfer/assign such right to a third party gatherer.

4. LOCATION/OIL AND GAS OPERATIONS AREA.

The locations of Wells, the Access Roads to the Well sites and Facilities to be constructed on the Lands (the "Oil and Gas Operations Areas" or "OGOA") shall be discussed by and between Owner and Operator prior to commencement of operations. Provided that the OGOA and rights-of-way are consistent with the provisions of this Agreement, Owner will not unreasonably object to the location of the OGOAs and rights-of-way proposed by Operator. Material changes to the OGOA may be made by Operator with the consent of Owner, which shall not be unreasonably withheld provided that such changes will not unduly interfere with Owner's existing use of the Lands. It is also understood and agreed that additional Access Roads and Facilities located outside of the OGOA may be necessary for Operator's activities and in these circumstances Owner and Operator agree to designate a mutually agreeable location for said Access Roads and Facilities. Operator agrees not to use any more of the surface of the Lands than is reasonably necessary to conduct its operations. This Agreement does not in any way limit the rights of Operator to drill future additional Wells with associated Facilities and Access Roads on the Lands or to exercise all rights consistent with its mineral ownership or lease rights.

5. OPERATIONS ON OTHER LANDS.

Owner acknowledges that Company now owns, or may in the future acquire, oil and gas leasehold rights covering lands adjacent to or in the vicinity of the Property (the "Other Lands"), which may not be pooled with the Property. Notwithstanding anything in this Agreement to the contrary, in addition to Company's rights of access and use granted herein for purposes relating to Company's Operations on the Property or lands pooled therewith, Owner hereby grants Company all of the same rights of access and use for purposes relating to Company's Operations on the Other Lands, or lands pooled therewith, including, but not limited to, the rights of surface and subsurface ingress, egress and access to the Property and such easements and rights-of-way on, over, under and across the Property, and the right to construct and access Pads, New Roads and Lines on the Property, and the right to use Existing Roads on the Property, in each case as may be necessary or convenient for Company's Operations on the Other Lands, or the lands pooled therewith. Company shall compensate Owner for such access and use in connection with the Other Lands on the same terms and conditions set forth in this Agreement, provided however, that to the extent a Pad, New Road or Line is used in connection with operations on both the Property and Outside Lands, Company shall be obligated to pay Owner for only one such usage.

6. CONDUCT OF OPERATIONS.

Operator's operations on the Lands will be conducted pursuant to the terms of the Leases, this Agreement, the rules and regulations of the Colorado Oil & Gas Conservation Commission ("COGCC"), applicable Colorado statutes and case law, and any applicable federal statutes and case law. This Agreement does not create in Owner a private right to enforce the rules and regulations of the COGCC.

7. COMPENSATION AMOUNT.

The Parties acknowledge that Operator will provide Owner with certain good and valuable consideration, as described in that confidential Letter Agreement of even date herewith, prior to the commencement of drilling operations for each Well drilled which consideration is agreed to be and constitutes full, complete and final consideration for settlement and complete satisfaction for any and all detriment, depreciation, injury, or damage of any nature to the Lands or crops growing thereon that may occur as a result from Operator's operations pursuant to this Agreement or the Leases. Subsequent operations related to the Wells including but not limited to refracs, recompletions, deepening, or redrilling, except in case of emergency, shall require prior notice to Owner. Operator shall pay Owner actual damages caused by said subsequent operations.

8. ADDITIONAL SURFACE USE PROVISIONS, ACCESS ROADS, AND FACILITIES.

With respect to its operations on the Lands, Operator and Owner will comply with the following provisions:

A. Access Roads:

(i) Owner shall provide Operator with continuous access to the Lands, Wells, Facilities and all associated oil and gas operations, equipment and areas associated therewith.

(ii) Operator will maintain all Access Roads in good repair and condition, and in accordance with COGCC regulations, state laws, and other applicable regulatory or statutory frameworks.

B. New Roads:

Company shall be entitled to use any existing roads located on the Property ("Existing Roads") in connection with its operations. New Roads constructed by Company shall be limited to approximately thirty (30) feet in width unless wider roads are required by Weld County for emergency vehicle access. The right to use any New Road or Existing Road shall be exclusive to Company, provided that Owner reserves the right to use any Existing Road on the Property, and with the prior written permission of Company, which shall not be unreasonably withheld, Owner may use any New Road so long as such use by Owner does not interfere with or impair Company's Operations. Company shall be responsible for maintaining all New Roads and any Existing Roads utilized by Company, at Company's sole cost and expense. Should Company damage any Existing Road, fence or gate, Company shall immediately repair the same to Owner's reasonable specifications at Company's own expense.

C. Lines:

All Lines shall be buried below plow depth and Company shall, when reasonably practical, place all Lines in the same trench and along and adjacent to Existing Roads and/or New Roads. Company may install as many Lines in a trench as it desires. The Property disturbed during installation, maintenance, or replacement of any Line shall be limited to approximately ninety (90) feet in width, reverting to thirty (30) feet in width upon completion of installation, maintenance or replacement operations.

D. Surface Restoration:

Upon permanent cessation of Operator's operations on the Lands, all areas thereof occupied or utilized by Operator will be restored by Operator to their condition immediately prior to operations as close to its original state as is reasonably practicable, and according to COGCC regulation.

E. Other:

(i) Operator will install culverts on the Lands that may be necessary to maintain drainage and irrigation in a manner equivalent to conditions upon the Lands immediately prior to operations as nearly as is reasonably practicable.

(ii) If by reason of the negligence of the Operator in the conduct of its operations pursuant to this Agreement or the Leases, there is damage to personal property of the Owner, including, but not limited to, irrigation wells, fences, culverts, bridges, pipelines, ditches, or irrigation systems, and for which Owner has not been previously compensated under this Agreement, Operator will repair or replace such items after consultation with and to the reasonable satisfaction of the Owner. Owner will notify Operator of any items damaged after the Wells have been drilled and completed and Operator will repair or replace such items within 30 days of notice, unless otherwise agreed to by the Owner and Operator.

(iii) Operator agrees that all trash, refuse pipe, equipment, liquids, chemicals, or other materials brought on the Lands that are not necessary for continued operations of the Wells will be removed and disposed away from the Lands no later than 30 days after the completion of the Wells. No such items will be burned or buried on the Lands.

(iv) During drilling operations the well sites and any pits shall be fenced if requested by Owner. Additionally, the well sites shall be kept free and clear of all noxious

weeds, unsightly growth and trash either during drilling operations or after completion and production.

(v) Operator agrees to fence off the perimeter of the well sites with temporary fencing if reasonably requested by Owner. Operator will also install cattle guards or gates where reasonably necessary.

9. DEFAULT AND RIGHT TO CURE.

In the event of alleged default by Operator in the payment of any Compensation Amount, in obligations to be performed, or any other terms, conditions or covenants of this Agreement, Owner will notify Operator, by certified mail, return receipt requested, of the alleged default. Operator will have 60 days from receipt of the written notification in which to dispute or otherwise respond to the notification before Owner may pursue other remedies of the alleged default. If Operator cures the alleged default within 60 days of Owner's notice, or if the alleged default is of a nature that cannot be cured within 60 days, then if Operator commences curing the alleged default within that 60 day period and diligently pursues such cure, then no default shall be deemed to have occurred.

Except as otherwise agreed in writing, no waiver by Owner of any breach by the Operator of any of its obligations, agreements, or covenants hereunder will be deemed to be a waiver of any subsequent or continuing breach of the same, nor will any forbearance by Owner to seek a remedy for any breach by the Operator be deemed to be a waiver by Owner of its rights or remedies with respect to such breach.

Any damages awarded to either party under this Agreement shall be limited to only the actual damages incurred by such party, and neither party shall be liable for consequential, incidental, punitive, exemplary or indirect damages in tort or in contract, or under any legal theory, and all such damages are hereby excluded and waived by the Parties and the exercise of the rights of any party hereunder.

10. INDEMNITY/RELEASE.

Owner hereby releases and agrees to hold harmless Operator, its agents, successors and assigns from any and all liability and further payment, other than what has been provided in this Agreement, for damages on the Lands which arise from, out of or in connection with the Operator's operations on the Lands, but only as to those operations described in and permitted by this Agreement, and for those operations which the Compensation Amount has been paid and received by Owner pursuant to this Agreement.

Operator hereby releases and agrees to hold harmless Owner from any and all liability arising from Owner's non-negligent operations on the Lands.

Operator agrees to indemnify and hold Owner harmless from any and all claims, damages and causes of action arising out of and caused by Operator's operations on the Lands that may be asserted by any of Operator's agents, employees, subcontractors, contractors or persons entering upon the Lands at the request of Operator; with the exception of any claims, damages, and causes of action that arise from Owner's gross negligence or willful and wonton misconduct.

Owner agrees to indemnify and hold Operator, its agents, successors and assigns harmless from any and all claims, damages and causes of action arising out of and caused by Owner's operations on the Lands that may be asserted by any of Owner's agents, employees, subcontractors, contractors or persons entering upon the Lands at the request of Owner; with the exception of any claims, damages, and causes of action that arise from Operator's gross negligence or willful and wonton misconduct.

11. WAIVER OF COGCC NOTICES AND OTHER REGULATORY MATTERS.

A. Owner hereby waives the following notices and consultations:

- (i) Rule 305.a.: Notice of Intent to Conduct Oil and Gas Operations;

C. Owner hereby waives any right granted by COGCC rule to comment on the Form 2A, to request an extension of the comment period, to request an onsite inspection pursuant to COGCC policy, and to appeal the approval and issuance of the Form 2A, and any related Form 2.

D. Owner shall not oppose Operator, its agents, consultants, attorneys, successors and assigns in any COGCC or other administrative or governmental proceedings related to Operator's operations, including but not limited to permitting, formation of drilling units, well spacing, well density, pooling, drilling, completion, stimulation, re-stimulation, workovers, deepening and recompleting, provided that Operator's position and contemplated undertakings in such proceedings are consistent with this Agreement. Owner will provide Operator, its agents, consultants, attorneys, successors and assigns with any and all written support they may reasonably require to obtain permits from the COGCC or other applicable governmental body.

E. Owner understands and acknowledges that the COGCC has rules and regulations that apply to the distance between a wellhead and public roads, production facilities, building units, occupied buildings, and surface property lines, among other things. For the operations contemplated by this Agreement, Owner hereby waives the Exception Zone, Buffer Zone, Urban Mitigation Area, and High Occupancy Building setback distances, as required by COGCC rules and regulations.

F. Owner grants consent to locate the Wells greater than 50 feet from an existing well pursuant to COGCC Rule 318A.c. Owner grants consent to locate Wells outside of the GWA windows as defined in COGCC Rule 318A.a.
