Dear Director:

Please let this letter serve as a request for administrative approval of exception locations for the captioned oil and gas well(s).

Rule 318A.a requires surface locations within a square with sides four hundred (400) feet in length, the center of which is the center of any governmental quarter-quarter section ("400' window"); or within a square with sides eight hundred (800) feet in length, the center of which is the center of any governmental quarter section ("800' window").

Rule 318A.c requires a new surface location to be less than 50' from an existing surface well location.

Crestone Peak Resources proposes to drill the above referenced well at a surface location outside a legal drilling window as defined by Rule 318A.a and at a surface location further than 50' from an existing well as defined by Rule 318Ac. Signed waivers of Rules 318A.a and 318A.c by the surface owner are being submitted.

Thank you for your assistance in this matter.

If you have any questions or comments, please contact me at 720-410-8536

Sincerely,

CRESTONE PEAK RESOURCES

Toby Sachen
