Dear Director Murphy:

Bayswater Exploration & Production, LLC (Bayswater) is planning to drill 16 horizontal wells on the KTC Farms 35-A Pad as referenced above.

Pursuant to COGCC Rule 318A.c., any new well is to be located within 50 feet of an existing well. The proposed surface locations are approximately 626' SE to 627' NE from the Wilson 1-35. The surface locations of Bayswater's proposed wells have been staked outside of the Colorado Oil & Gas Conservation Commission (COGCC) Rule 318A.a. Greater Wattenberg Area Drilling Window and are being permitted as exception locations. These wells are being proposed to an agreed upon location in the Surface Use Agreement with the surface owner. Bayswater has obtained written permission from the surface owner by way of signed waiver.

Bayswater respectfully requests the COGCC to review the enclosed information and approve the requested exception location request and Applications for Permit to Drill for these wells.

Respectfully,

A handwritten signature in black ink, appearing to read "Justin Garrett", is written over a light blue circular stamp.

Justin Garrett
