#401598638
Weld County, Colorado**

Dear Director Murphy:

Mallard Exploration, LLC (Mallard) is applying to the Colorado Oil and Gas Conservation Commission (COGCC) to drill 6 wells on the above referenced pad. The surface locations of Mallard's proposed wells have been staked outside of the Colorado Oil & Gas Conservation Commission (COGCC) Rule 318A.a. Greater Wattenberg Area Drilling Window and are being permitted as exception locations. These wells are being proposed outside of the Drilling Window due to an agreed upon location in the Surface Use Agreement with the surface owner. Mallard has obtained written permission from the surface owner via Surface Use Agreement. Waiver language is included on page 5, paragraph F of the signed Surface Use Agreement.

Mallard respectfully requests the COGCC approve the exception location request and Application for Permit to Drill for the wells on the subject pad. Many thanks for your consideration of this matter.

Respectfully,

Justin Garrett
Regulatory Analyst
Agent for Mallard Exploration, LLC
