RE: COGCC Rule 317.s: Statewide Fracture Stimulation Setback  
Rinn Valley West N18-20-11C  
SESE, Section 18, Township 2 North, Range 68 West  
Weld County, Colorado

Dear Operator,

Extraction Oil & Gas, Inc. (Extraction) intends to apply to the Colorado Oil and Gas Conversation Commission ("COGCC") to drill and operate the above referenced well. Pursuant to the following COGCC Rule 317.s. Statewide Fracture Stimulation Setback:

- (1) *No portion of a proposed wellbore's treated interval shall be located within 150 feet of an existing (producing, shut-in, or temporarily abandoned) or permitted oil and gas wellbore's treated interval belonging to another operator without the signed written consent of the operator of the encroached upon wellbore. The signed written consent shall be attached to the Application for Permit-to-Drill, Form 2 for the proposed wellbore.*
- (2) *The distance between wellbores measurement shall be based upon the directional survey for drilled wellbores and the deviated drilling plan for permitted wellbores, or as otherwise reflected in the COGCC well records. The distance shall be measured from the perforation or mechanical isolation device.*

As currently planned, the proposed treated interval of the aforementioned subject horizontal well will lie within 150 feet of the treated interval of the following well belonging to Crestone Peak:

**Williams 23-18, API #05-123-21956, located in the NWSW of Section 18-T2N-R68W, Closest distance: 80.41'**

Please see enclosed the Well Location Plat and Anti-Collision Report detailing the planned wellbore. Should you find the stimulation of the proposed wellbore acceptable, please indicate so by signing the below section and returning the signed letter either via email to [kwelch@extractionog.com](mailto:kwelch@extractionog.com) or by mail. Please contact the undersigned at 720-354-4607 with any questions.

Sincerely,
