Dear Director Murphy:

Bison Oil & Gas II, LLC (Bison) is applying to the Colorado Oil and Gas Conservation Commission (COGCC) to drill 12 wells, in the Niobrara and Codell formations, on the above referenced pad. The surface locations of Bison's proposed wells have been staked outside of the Colorado Oil & Gas Conservation Commission (COGCC) Rule 318A.a. Greater Wattenberg Area Drilling Window and are being permitted as exception locations. These wells are being proposed outside of the Drilling Window due to an agreed upon location in the Surface Use Agreement with the surface owner. Bison has obtained written permission from the surface owner via Surface Use Agreement (Section 11.F).

Bison respectfully requests the COGCC approve the exception location request and Application for Permit to Drill for the wells on the subject pad. Many thanks for your consideration of this matter.

If you have any question, please contact me at 720-644-6997 ext. 4 or at awenk@bisonog.com.

Respectfully,

Abigail Wenk
Regulatory Manager
