CORRECTIVE ACTIIONS:

1 CA# 120141

Corrective Action: Remove all equipment no longer needed for the production or completion of wells located on Loc # 440634.

Date: 12/03/2018

Response: FACTUAL REVIEW REQUEST

Basis for Review: Equipment is not owned or controlled by the operator

Operator Comment: The FlexFlow line mentioned in the inspection is not on the B&V pad. Ursa has attempted to remove this line on two occasions after the road crossing by the city was completed (this operation prevented removal), once the equipment and personnel from FlexFlow were onsite and were shut down due to the GarCO fire restrictions. This FlexFlow material requires a very specific removal process, the company has been one month out to schedule removal. Ursa continues to pursue removal now that fire restrictions have been lifted but are at the mercy of the contractor but are hopeful to get removed before the end of the year.
