General Comment:

This inspection is in response to a complaint regarding Reclamation. See complaint section for more details.

This inspection is being entered for notification and documentation only and is not intended to provide the Operator the opportunity to resolve the alleged violations without the imposition of a penalty, pursuant to Rule 522.c.

Inspected FacilitiesFacility ID: 327954 Type: LOCATION API Number: - Status: CL Insp. Status: RI**Complaint**

Comment: Complaint #: 200446939
Field Inspector Assigned: Chris Binschus
Location ID #: 327954
Inspection Document #: 682404491
Nature of complaint: An inspection of the above location was conducted with focus on Final Reclamation. Complainant indicated that the location was not properly contoured to allow for successful flood irrigation which has resulted in loss of hay production throughout this location.

Comment: Operator has failed to properly contour the Location per Rule 1004. COGCC Staff conducted a site investigation and determined there were low and high spots throughout the Location. This is affecting revegetation throughout the Location and not allowing for successful flood irrigation operations. Well was plugged and abandoned 03/23/2017. There has been two years of growing seasons and vegetation has not established to reference area vegetative levels. Refer to the attached inspection photos for more detail.

Corrective Action:	Comply with Rule 1004. Operator shall collaborate with the surface owner to perform reclamation in accordance to Rule 1004 standards. The corrective action date is the date the Location was observed out of compliance.	Date 02/05/2019
Overall Final Reclamation	Fail	Well Release on Active Location <input type="checkbox"/> Multi-Well Location <input type="checkbox"/>
