**Operator Comments:**

Vendor: ShaleStone  
Number & Size: We will set one (1) MLVT (67' Diameter, 20,000 bbl)  
Anticipated Time Frame on location: 4 Months

Location/Placement: This is an approximate placement as the exact location will be determined once Drilling Operations have been completed. The anticipated placement is in the NE corner for the DD28-14, DD30-14 & DD30-16 well pads and the NW corner for the DD29-14 & DD29-15 well pads.

Please note that setting the MLVT will not increase our permitted area of disturbance. The protection for water resources are in place per the approved Form 2A's and there are no Building Units within 1000'.

Please see the attached Operator Certification stating MLVT will be designed and implemented consistent with the June 13th, 2014 COGCC MLVT policy.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
