I wanted to advise you that we reached out to La Plata Electric about disconnecting the meter at the location, and were told the following:

2/18/2020 spoke with Jeanie Dittmar with La plata electric and her them about getting this meter disconnected from the transformers so we can remove our surface equipment. The meter number is A 4000209. The lady said that meter was registered to a landowner and could not tell me who they were because of privacy.

In light of the new information, we can now positively say that the equipment on the Barnes location is not Merrion Oil & Gas and does belong to the landowner. We will see this spring how the growth is doing and once we confirm that we have had adequate growth we will reach out to you.
