**General Comment:**

On 2/27/2020 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

- Revegetation needs to be conducted along the pipeline right of way, near the well pad entrance by 5/1/2020.
- Stormwater controls (ie: BMPs) and erosion controls (ie mulch) are needed until revegetation areas are stabilized with desirable perennial vegetation.

See below, and attached photos for additional detail.

1003 f. Weeds Noxious weeds? \_\_\_\_\_

Comment Vegetation along the pipeline right of way, near the well pad entrance is sparse, and appears to be killed.

Corrective Action Revegetation needs to be conducted in areas where vegetation is sparse, bare, and/or killed. Soil testing and amendment/remediation may be needed for successful revegetation. Date 05/01/2020
