**General Comment:**

On 4/3/2020 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Revegetation needs to be conducted in area where vehicle damaged vegetation in the eastern project area, by 5/1/2020. Care should be taken to preserve surviving vegetation on the slope.

See below, and attached photos for additional detail.

VEGETATIVE COVER \_\_\_\_\_

1003 f. Weeds Noxious weeds? \_\_\_\_\_

Comment

Vehicle tracks within the eastern revegetation area has damaged vegetation.

As it is early in the growing season weeds may not be observable at this time. Monitoring and treatment (as needed) should continue throughout the growing season.

Corrective Action

Repair/revegetate damaged vegetation within the eastern project area. Mulch is needed to stabilize soils until desirable vegetation returns. Care should be taken to preserve surviving vegetation on the slope.
