Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
		Check Dams	Fail			
		Culverts	Fail			

Comment: There are portions along the access road that were regraded and additional culverts installed. There was check dams and rock rip/rap installed however, the installation was not properly performed. There is rock placed at the culvert inlets which can obstruct stormwater flow and impede sediment cleanout. There was no outlet protection installed at the culverts. There is signs of erosion and disturbance areas are not stabilized. The slopes along the road and disturbance areas will need to be seeded and stabilized. There are areas of erosion that have not been repaired. BMP's must be implemented in accordance with good engineering practice and must be maintained until final reclamation is achieved.

Corrective Action: Install or repair required BMPs per Rule 1002.f.(2)C	Date: 06/25/2019

Pits: NO SURFACE INDICATION OF PIT
