General Comment:

This inspection is in response to recent email communication between Reclamation Specialist and Mr. David Lee of Nonsuch.

On Sep. 22, 2020, Nonsuch emailed inspector in response to FIR #696201797, stating that the Location does not belong to Nonsuch; After additional review and COGCC internal discussions, it has been determined that CSOC TB Location #453726, and the CSOC 697-14 Tank Battery Facility #453727, is under Nonsuch Natural Gas' management and responsibility, as indicated by COGCC Location and Facility records.

Additionally, with exception to the production meter on the Location (associated with the CSOC 697-14 1 well, API #045-07948), it is unclear to the COGCC as to what the current use of the remaining equipment is for production activities on the Location, or if equipment is active.

Refer to the "Location" section of this inspection report for additional details.

Any Corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.
