**General Comment:****COGCC Inspection Report Summary**

On Tuesday 10/20/20 at approximately 1200, I, Inspector Scott Ramsey, conducted a routine inspection at TEP RMV 136-21, at Location # 324180 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year.

During this inspection the following possible compliance issues were observed:

- BMP's require maintenance (riling on south and west sides of location with some run off of sediment choking out vegetation)
- Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
