Comment: Insufficient stormwater BMP to prevent sediment from flowing over the location.

Stormwater sediment is flowing off the hillside on the east side of the location. Then over the location and off the west side of the location. Vegetation on the ranch is chocking out just west of the location from sediment. The space between the berm & hillside is filled with sediment.

Corrective Action: Install or repair required BMPs per Rule 1002.f.

Date: 12/09/2020

Pits: ☒ NO SURFACE INDICATION OF PIT
