General Comment:**COGCC Inspection Report Summary**

On Monday 12/21/20 at approximately 1000, I, Inspector Scott Ramsey, conducted a routine inspection at Grizzly Broome 1, at Location # 335227 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. Limited storm water inspection due to snow.

During this inspection the following possible compliance issues were observed:

- Location shows signs of lack of stabilization BMP's in some areas (riling is present) on cut slope behind tank battery
- No evidence of tracking control BMP's
- Tank sign needs maintenance
- Unused equipment at well heads(solar panel and injection pump)

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
