441811	LOCATION	AC			-	Fairview 5-I Pad	RI

**General Comment:**

[This inspection is in response to a complaint regarding traffic and vehicle tracking- see complaint section for more details.](#)  
[COGCC staff also performed an interim reclamation and stormwater inspection.](#)

Location			
<b>Lease Road:</b>			
Type	Access		
comment:	Operator has been utilizing an unapproved access route off the main lease road to access Fairview Street. The unapproved vehicle traffic has created new disturbances off the main lease road (Picture #3) and has impacted an area along a portion of the adjacent landowner (Smuckers).		
Corrective Action:	Operator shall reclaim the unapproved vehicle traffic disturbance shown in Picture #3 per Rule 1004 standards and shall coordinate with the adjacent landowner (Smuckers) and City of Longmont on the required repairs.		Date: <u>01/11/2021</u>
	Within 15 days of completing all required corrective actions, Extraction shall submit documentation (i.e., minimum of photos) of completed work via FIRR or sundry notice.		
	The corrective date is the date the location was observed out of compliance.		
Type	Access		
comment:	Operator has been utilizing an unapproved access route off the main lease road to access Fairview Street. The unapproved vehicle traffic has created new disturbances off the main lease road (Picture #3) and has impacted an area along a portion of the adjacent landowner (Smuckers).		
Corrective Action:	Extraction shall provide documentation they instructed contractors about the proper route.		Date: <u>01/11/2021</u>
	The corrective date is the date the location was observed out of compliance.		
Type	Access		
comment:	Operator has been utilizing an unapproved access route off the main lease road to access Fairview Street. The unapproved vehicle traffic has created new disturbances off the main lease road (Picture #3) and has impacted an area along a portion of the adjacent landowner (Smuckers).		
Corrective Action:	Extraction shall implement a more robust best management practice to ensure the proper route is utilized (e.g., more barriers, signage, ect..).		Date: <u>01/11/2021</u>
	Within 15 days of completing all required corrective actions, Extraction shall submit documentation (i.e., minimum of photos) of completed work via FIRR or sundry notice.		
	The corrective date is the date the location was observed out of compliance.

Comment Operator has performed interim reclamation activities to reduce disturbance areas only needed for production operations. COGCC staff will perform a future vegetative assessment during the active growing season to ensure Rule 1003 vegetation standards are in compliance.  
  
Operator shall continue to monitor and manage this site until the location meets Rule 1003 standards, including stormwater and weed management. Operator shall submit a Form 4 Interim Reclamation Complete notice when the location meets Rule 1003 standards. COGCC may conduct inspections prior to receiving said notice to ensure compliance with Rule 1003.

Comment: As part of the complaint, COGCC staff had to evaluate whether additional tracking device BMPs were required. Operator has sufficiently stabilized the entire main access route. The entrance/exit portion (Hwy 119 to the cattle guard ~50 yard distance) of the main access route has been capped with recycled asphalt. There was no evidence of rutting; however, there was snow cover preventing a thorough assessment. At the time of this inspection, there were no vehicle track out issues.

A ditch and berm BMP along the east and south perimeter is directed to a stabilized outlet. At the time of this inspection, the location BMPs are in proper functioning condition.

See COGCC Comments section regarding stormwater management.

**COGCC Comments**

Comment	User	Date
COGCC staff, Chris Binschus, contacted both the complainant and Operator on January 12, 2021 via a phone call to discuss the final corrective action requirements.	binschusc	01/12/2021
Oil and gas operators shall implement and maintain Best Management Practices (BMPs) at all oil and gas locations to control stormwater runoff in a manner that minimizes erosion, transport of sediment offsite, and site degradation. BMPs shall be maintained until the facility is abandoned and final reclamation is achieved pursuant to Rule 1004.	binschusc	01/12/2021
