TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment:

Corrective Action:	<p>It has been three (3) growing seasons since the previous inspection report and this location has not progressed towards reference area vegetative levels. There is a lack of desirable perennial establishment, as much of the location has no vegetative growth. Refer to the attached inspection photos.</p> <p>The associated offsite tank battery appears to be located east, now part of the PDC Orr State location.</p>	Date 04/12/2021
	<p>Comply with Rule 1004. Reseed disturbance areas using a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management.</p> <p>Revegetation activities shall be complete no later than 4/12/2021 or as soon as environmental conditions will permit.</p>

Comment: At the time of this inspection, no erosion issues were observed.

Corrective Action: Date:

Pits: ☐ NO SURFACE INDICATION OF PIT

COGCC Comments

Comment	User	Date
This area is being grazed with cattle. Operator should consider installing temporary fencing to keep cattle out while reclamation is in process.	binschusc	02/02/2021
