RE: COGCC Rule 408.u.(1): Statewide Setback for Hydraulic Fracturing Treatment
GP CBJ FED 17W-25-05
NENE, Section 20, Township 5 North, Range 65 West
Weld County Colorado

Dear Operator,

Extraction Oil & Gas, Inc. (Extraction) intends to apply to the Colorado Oil and Gas Conversation Commission ("COGCC") to drill and operate the above referenced well. Pursuant to the following COGCC Rule 408.u.(1) Statewide Setback for Hydraulic Fracturing Treatment:

- (1) No portion of a proposed wellbore that will be treated by hydraulic fracturing may be located within 150 feet of an existing (producing, shut-in, or temporarily abandoned) or permitted interval of an oil and gas wellbore that has been or will be treated by hydraulic fracturing belonging to another Operator without the signed written consent of the Operator of the encroached upon wellbore. The Operator will attach any signed written consents to the Form 2 for the proposed wellbore.*
- (2) The Operator will measure the distance between the proposed and offset wellbores using the directional survey for drilled wellbores and the deviated drilling plan for permitted wellbores, or as otherwise reflected in the Commission's Well records. The Operator will measure the distance from the perforation or mechanical isolation device.*

As currently planned, the proposed treated interval of the aforementioned subject horizontal well will lie within 150 feet of the treated interval of the following wells belonging to Noble Energy, Inc.:

LORENZ #15-15, API #05-123-21321, located in the SWSE of Section 15-T5N-R65W,
Closest distance: 99'

Please see enclosed the Well Location Plat and Anti-Collision Report detailing the planned wellbore. Should you find the stimulation of the proposed wellbore acceptable, please indicate so by signing the below section and returning the signed letter via email to jannable@extractionog.com. Please contact the undersigned with any questions.

Sincerely,

Jeff Annable
