**General Comment:**

COGCC Inspection Report Summary

On Wednesday 6/30/2021 at approximately 1200, I, Inspector Scott Ramsey, conducted a follow up inspection at TEP Mclin A, at Location # 421223 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat and Wildlife Management Area. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad, there is no evidence of a tracking pad at time of inspection.

C/A (battery signage, container label) from previous inspection document # 700702249 have been satisfied.

During this inspection the following compliance issues were observed:

1. Unmarked dead man (markers are laying on the ground)
2. Staining at separators where compressor was.

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
