Comment: The access road has not been reclaimed. There is no valid variance for the access road to remain except for the initial portion shown in attached Exhibit 1. There are undesirable weeds growing along the access road especially along the area of road that runs north/south which appears to have no use. The disturbed area which extended out beyond the sediment trap has not met the revegetation requirement and needs to be reseeded to establish the required vegetation cover. Previous corrective action has not been completed.
