General Comment:

This is a follow up of the previous reclamation inspections (doc. #690201856, #690202007).
NOAV document #402839608 has been issued for non-compliance.
See attached photos and additional details within this report.

1004.d. FINAL VEGETATION TRANSECT

TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment: The access road and location have not been recontoured and reclaimed per the Rules. There is rock rip/rap along the road and culverts remain. The well site pad remains flat with an extensive unstable cut slope. The fill slope material was not resloped back to contour. There is a road that was built to access the canyon bottom that was not recontoured and there are noxious weeds in this area. Corrective action has not been completed.

Corrective Action: Comply with 1004 Rules.	Date: _____
Overall Final Reclamation Fail	Well Release on Active Location <input type="checkbox"/> Multi-Well Location <input type="checkbox"/>

Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
Seeding	Fail					
Waddles	Fail					
Hydro Mulch	Fail					

Comment: There are insufficient stormwater controls installed as previously indicated and BMP's have since failed. The wattles have filled in with sediment and are not maintained. The fill slope is not stabilized and there is erosion rilling that has occurred which has washed out hydromulch and seeding. BMP's must be implemented in accordance with good engineering practice and must be maintained until final reclamation is achieved. Corrective action has not been completed.

Corrective Action: Install or repair required BMPs per Rule 1002.f.(2)

Date: _____

Pits: ☐ NO SURFACE INDICATION OF PIT

COGCC Comments

Comment	User	Date
The Operator submitted a reclamation plan to COGCC Staff on 4/14/2021. The reclamation plan detailed the final reclamation to be implemented. On 7/22/2021 a reclamation inspection was performed which discovered that the Operator did not follow their own plan to recontour and reclaim the well pad nor was it reclaimed per the Final Reclamation Rules. The well site location remains out of compliance with the Reclamation Rules.	CostaR	10/19/2021
