General Comment:

On 11/17/2021 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-What appears to be surface owner equipment, wood cutting, etc. stored on all sides of the location and inhibiting reclamation. Operator is not controlling location as this corrective action was identified during a 2016 reclamation inspection. Remove and properly store unused equipment by 1/15/2021. Areas where equipment is stored will likely need revegetation.

-Remove and properly dispose of weed debris by 12/30/2021.

See below, and attached photos for additional detail.

<p>Comment: Stormwater and erosion controls were assessed during this inspection and active erosion was not observed. These controls are assessed for whether they are functioning at the time of the inspection only. A determination as to whether or not they are adequate for the location over the duration of production is not made. Continue monitoring and managing stormwater and erosion controls to ensure compliance with stormwater regulations.</p> <p>Corrective Action: Date: _____</p> <p>Pits: <input checked="" type="checkbox"/> NO SURFACE INDICATION OF PIT</p>
