General Comment:

On 1/31/2022 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Remove and properly store non-oil and gas equipment outside of the project area. If portions of the well pad where non-oil and gas equipment is not needed for production operations, then interim reclamation needs to be conducted. Corrective action date: 5/1/2022.

See below, and attached photos for additional detail.

Comment: Stormwater and erosion controls were assessed during this inspection and active erosion was not observed, although largely snow covered. These controls are assessed for whether they are functioning at the time of the inspection only. A determination as to whether or not they are adequate for the location over the duration of production is not made. Continue monitoring and managing stormwater and erosion controls to ensure compliance with stormwater regulations.
