Date

On March 14, 2022 COGCC SW EPS Jim Hughes conducted a follow up environmental field inspection of the Catamount Spill/Release Point ID #452581. For the most recent field inspection report of this event, please refer to Document #674902001.

An operator comment on Supplemental Spill/Release Report Document #401431596 stated, "Catamount has contacted Envirotech, Inc. of Farmington, New Mexico to view the sight and sample possible impacted areas. A follow-up plan will be submitted.

A COGCC comment stated, "The operator shall provide documentation received from consultant investigating Spill/Release Point ID#452581 via a supplemental eForm 19 upon receipt."

The operator will submit a Supplemental Form 19 providing the results of the environmental consultant's findings.

Per Rule 912.b.(6): No later than 90 days after a Spill or Release is discovered, the Operator will have submitted, and obtained the Director's approval of either:

A. A Form 19 – Supplemental requesting closure pursuant to Rule 913.h and supported by adequate documentation to demonstrate that the Spill or Release has been fully cleaned up and complies with Table 915-1; or

B. A Form 27 if any of the criteria listed in Rules 912.b.(6).B.i–iii apply. If Remediation will continue under an approved Form 27, the Operator will also submit a Form 19 – Supplemental which requests closure of the Spill or Release and includes the Remediation project number assigned by the Director.
