Gorka, Ray		RGorka@kpk.com	KPK environmental

General Comment:

During a routine environment inspection of Facility ID 480225/ Remediation Project 19246 the inspector was approached by the landowner and directed to an area of reported staining and sheen on groundwater. See additional comments under spills/releases. Pictures attached to document site conditions at time of inspection. Corrective actions require 24 hour response from Operator.

Environmental**Spills/Releases:**

Type of Spill: _____

Estimated Spill Volume: _____

Comment: The area indicated by the landowner exhibited visual staining (see attached photos) and an elevated PID reading. These soils were in contact with surface water. The reported sheen was not visible at the time of inspection.

Corrective Action: Operator shall immediately coordinate with the landowner and investigate the stained area to determine if it is petroleum impacted soils. If it is a reportable spill/release; reporting shall follow Rule 912. If this is not a reportable release, Operator shall provide documentation in a FIRR.
